Religious Intelligence.

THE NOONDAY PRAYER MEETINGS are still attended by large numbers of people, representing all the evangelical denominations of the city. These union services are doing more to break down the prejudices of sectarianism than any other influence that has ever been exerted. There is now more fraternal spirit and united effort in the Protestant Churches of this community than at any former period, and to the Young Men's Christian Association belongs the credit, under God, for accomplishing so glorious a work. The young men engaged in this effort are not to be discouraged or diverted from their duty by criticisms of sect or paper, or any other influence: but are going right on in the fear of God for the accomplishment of good to men.

THE Odd Fellows, in the observance of their appointed fast day, have secured the services of Rev. Mr. McIlyar, pastor of the M. E. Church, of New Brighton, to preach an appropriate sermon on next Friday, at the First Methodist Church, Fifth street. Rev. Alex. Clarke, the pastor of this church, will preach a sermon before a similar audience of the craft and their families, at the same hour, in the Methodist Episcopal Church, at Bridgewater, Pa.

REV. MR. LAIRD, the pastor elect of the Evangelical Lutheran Church, on Seventh street, is spoken of in our religious exchanges as a preacher of unusual talent and power, and his settlement in Pittsburgh will be a great acquisition in these times of such great interest in the churches. This church has been without a pastor for a long time, but have found the right man for the place at last.

CHURCH BUILDINGS IN ALLEGHENY.—The Disciples' church, at the corner of Beaver street and North Commons, Allegheny, is rapidly approaching completion, and will be one of the most commodious and comfortable, as well as one of the handsomest edifices in the State. It is located immediately opposite the United Presbyterian Church of Rev. Mr. Dickey, making a beautiful match-piece of architecture by which Beaver street shall be made prominent at any view from the Common. Across the Common, northward, is the new Methodist Episcopal church, of which Rev. E. B. Snyder, late of Christ Church, Penn street, is the pastor. This will be a very fine structure when finished, and the workmen are busily engaged upon it, and the congregation have abundant means.

THE FAMILY TREASURE, a monthly religious magazine published in the interests of the Presbyterian Church, has been removed from Pittsburgh to Cincinnati, and appears under the editorship of Rev. Dr. Findley, of Xenia, Ohio, in a very handsome dress, and otherwise improved.

REV. WENDELL PHILLIPS.—It may not be generally known that Wendell Phillips, the distinguished Radical lecturer, (who is announced to speak at the Academy of Music this evening) is a preacher of the gospel. It has been our privilege to hear him read and expound the scriptures from the pulpit of Theodore Parker, in Boston, on Sabbath, beginning and closing the religious services by a hymn, prayer, &c., after the manner of common orthodoxy. And some of the truths he preached were the most vividly gospel-like that we ever listened to. Of course Mr. Phillips would not be spoken of as a Doctor of Divinity, nor be recognized as belonging to the priesthood by his closest friends, his preaching being more of an accident than an aim of his life. Where he may worship in the Smoky City to-morrow, this deponent sayeth not.

THE attendance upon the public services in the different churches has never been so general, nor the attention more profound than within the last few weeks in this city. Churches that formerly had many empty pews are filling up, and faces that were seldom if ever seen in the sanctuary, are becoming familiar as worshippers in the House of God. The streets are more quiet and orderly on the Sabbath: the haunts of vice less frequented, and altogether the morals of the community greatly improved. To-morrow being Easter Sunday, should be one of especial interest in all the churches. The theme for many sermons and for meditation will be the Resurrection of Christ. The observance of Lent in the Roman Catholic and Protestant Episcopal churches will cease with this date, and the communicants resume their usual rules of life and work.

WE learn the revival meeting in the Baptist church in Sharpsburg are well attended, and that anxious converts are multiplying under the labors of Elder G. W. Balcom, the Evangelist.

REV. HENRY D. MOORE, pastor of the First Congregational Church, Pittsburgh, has received a unanimous call to become pastor of the Vine Street Congregationalist Church, Cincinnati, the congregation of which Rev. Dr. Boynton, now Chaplain to Congress, was the late pastor. This is one of the largest and most influential churches in Cincinnati, occupying the very heart of the city, geographically, and comprising many of the prominent business men of that busy metropolis. It is perhaps the most desirable situation in the denomination in the State. Mr. Moore has also received a unanimous re-call from his former charge in Portland, Maine, a fact which speaks the highest compliment. These calls have sprung out of the unauthorized rumor in the New York *Independent* that Mr. Moore had, owing to a tendency to throat disease in Pittsburgh atmosphere, resigned his charge in this place. Which of these calls, if either, Mr. M. may accept, we are not prepared to say, but sincerely hope that he may conclude to remain where he is accomplishing so much good.

THE IRON CITY.—This is the name of a new publication published by Messrs. George W. Pittock and Kinsey McFall, the first issue of which was made yesterday. It is a complete compendium of facts concerning Pittsburgh and the vicinity, and will prove useful and interesting to the resident citizen, while it provides the stranger with an amount of invaluable information unattainable from any other single source. This initial number commences a paper on the Early History and Present Resources of Pittsburgh, which is instructive and entertaining. The rest of the contents is an exhaustive epitome of all that relates to the public institutions, government and business matters connected with the city, and no end of other details concerning everything about anything that anybody could possibly want to know. Allegheny City, Birmingham and Manchester are not forgotten, nor any of the numerous outlying boroughs and townships. The publishers desire that all communications and advertisements for the next number should be handed in before the 24 of May in order to insure attention.

BEAVER, PA., April 19, 1867.

A very large and respectable audience assembled in our Court House last evening, when a lecture on temperance was delivered by the State Lecturer of I. O. of G. T. The Rev. J. F. Dravo was called to the chair. Prayer offered by Rev. Mr. Fast. At the conclusion of the lecture the names of fifty-five citizens were received, twenty-six of them being ladies—as charter members; and Beaver Lodge was organized in due form, and the following officers elected: Rev. J. F. Dravo, W. C. T.; Mrs. Victoria Weyand, W. V. T.; D. Singleton, W. S.; Mrs. Matilda Hall, W. T.; Miss Mary Stokes, W. I. G.; Joseph McClure, W. O. G.; Mrs. C. A. Hoffman, R. H. S.; Mrs. M. A. Fast, L. H. S.; Mrs. Amelia M. Moore, W. A. S.; J. H. McCreary, W. M.; Miss Jessie Frazier, W. D. M.; J. A. Frazier, W. F. S.; S. B. Wilson, P. W. C. T.; Professor R. T. Taylor, Chaplain. CITIZEN.

LATE NEWS ITEMS.

A fire at Paris, Illinois, Thursday night, destroyed property to the amount of $20,000.

Three men have been arrested on suspicion of having stolen the $175,000 from the Brooklyn Navy Yard a year or two since. It is stated that these three men have been doing business for some time past as brokers in Wall street, under assumed names, and that one of them has served a short time in the Penitentiary since the commission of the robbery.

The *Herald's* Montreal special says: It is reported that the three reform members of the Government, Hon. Messrs. Blair, McDougal and Howland, are going to resign, in order that they may be free to follow the policy of the new reform party in Canada West. This would break up the coalition. The fact that Confederation for which a coalition was formed has been carried, gives an air of correctness to the report.

The workingmen of Baltimore have organized a workingmen's political union on the platform of the National Labor Congress held in that city last fall.

The suit against Major General John E. Wool, for false imprisonment during the war, is progressing in the United State Circuit Court, Baltimore, and attracts much public interest, as other cases are pending on the result. General Wool is present.

A convention of Southern newspaper proprietors was held at Atlanta, Georgia, yesterday. A president and board of directors were elected with instructions to organize a system of telegraphic service for the Southern press exclusively.

Information received from the southwestern part of Virginia, says that the prospects of the tobacco crop are very favorable around Lynchburg.

We learn from the New Philadelphia, Ohio, *Chronicle*, that the foundry and machine works of Messrs. English & Dixon, lately destroyed, are to be rebuilt. To do this they are to have the generous aid of the public spirited citizens.

The Mahoning *Courier* says: The miners are all at work in the twenty-two banks on the Hubbard branch of the A. and G. W. R. R., and also in the Home Coal Company, and the Andrews Bro.'s bank, just below town. Most of these banks were idle nearly all winter, but the last went into operation some three or four weeks ago.

The Parkersburg *Times* says: The fruit trees in our gardens are putting on their very best appearance—not to say taking on airs. The peach, plumb, apricot and cherry trees are dressed in rainbow hues, and already burden the air with sweet perfumes.

The New Philadelphia, Ohio, *Advocate* says: We learn that parties prospecting for iron ore have discovered, on the farm of Joseph Junkins, about three miles north-east of New Philadelphia, a vein of black band ore, varying from eight to twelve feet in thickness. Means will be employed at once to ascertain the full extent of this vein, which will likely prove to be the most valuable discovery ever made in the county. The hills skirting the valley of the Tuscarawas abound in iron ore and coal, and only need enterprise and wealth to develop their resources. Tuscarawas county is without doubt one of the wealthiest in mineral resources in the State.

Archbishop Spaulding's condition is unimproved. His disease is dyspepsia of the lower bowels, superinduced by an attack of chronic diarrhœa. He is the senior Archbishop of this country, and it is stated that the Pope had determined to place the Cardinal's hat upon this eminent prelate.

General Herron Confirmed.

No Action on Gen. Herron's Appointment.

Senator Wilson's Southern Tour.

Robbery of Paymaster Belknap.

The Regular Cabinet Meeting.

Special Dispatch to the Pittsburgh Commercial.

WASHINGTON, April 15, 1867.

The Senate.

The Senate has been at work in earnest today, and held a session lasting for some time this evening. During the day's session the nominations of Raymond to Austria, and General Herron for the Louisiana Marshalship, occupied the greater portion of the time. The two New York Senators urged the confirmation of Raymond, but he was virtually rejected by being laid on the table by a large majority. Senator Nye made a speech bitterly opposing him as one of the prime movers of the Philadelphia Convention. No action resulted on Gen. Herron. A Committee was appointed to wait on the President to inform him that the Senate was ready to adjourn to-morrow, and asking him if he had any further communications to make. They waited on him this evening, and he replied that he had more business for the Senate, but it was not of a character to detain them, and he would not, therefore, insist on their detention.

Senator Wilson's Stumping Tour.

Senator Wilson left to-night for Orange Court House, Virginia, to commence a general stumping tour throughout the South. He intends to speak at every important town and city in the seaboard States, and return via the Mississippi River and the West.

Murder Will Out.

The Treasury Department to-day received additional particulars relative to the robbery of Navy Paymaster Belknap, four years ago, of two hundred thousand dollars. It turns out that one of the principal parties who swore to the implication of Belknap, and who got him dismissed from the service, is one of the real thieves, and has been doing business under an assumed name, in Wall street. An effort to get three of them out of jail on a writ of *habeas corpus* was made here to-day, but failed.

Cabinet Meeting.

The regular Cabinet meeting occurred to-day, which prevented the usual daily reception given by the President to those who usually call upon him. The Cabinet meeting lasted two hours. All were present but Stanton.

The Cincinnati Postmastership.

The usual Cincinnati Postmaster was nominated and rejected to-day. Ex-Judge Warren was the name that vibrated between the Senate and White House just two hours. It is expected that Calvin W. Thomas will be sent in this evening, and the result with his name is considered doubtful at this writing.

WASHINGTON, April 19, 1867.

RAYMOND'S NOMINATION LAID ON THE TABLE.

The nomination of Mr. Raymond as Minister to Austria, was laid on the table in the Senate this afternoon. The Senate refused to express an opinion whether the Mission is vacant or not.

NOMINATION.

Sydney Howard Gay was nominated for United States Assessor in the Nineteenth District of New York.

ARMY CHANGES.

Brevet Major General Truman Seymour is ordered to report to General Pope. Passed Assistant Paymaster Francis T. Gillett is detached from duty at Jefferson barracks and ordered to settle his accounts.

CUSTOM RECEIPTS.

The receipts of customs from April 7th to 13th, were $1,974,769 91. A decrease from the last statement is shown at all points except Baltimore.

REJECTIONS.

The Senate this evening did not confirm any nominations, but rejected the following: Postmasters—John B. Warren, Cincinnati; Matthew McMahon, Brooklyn, N. Y.; Wm. H. Pennington, Williamsport, Pa.; R. S. Young, Ritchfield; D. C. Pierson, Upper Sandusky, O.; Waldo L. Davis, Van Wert, O.; George T. Ketchum, Tecumseh, Mich. Consul General—Gideon H. Hollister, of Connecticut, at Havana. Surveyor of Customs—Washington J. Jackson, Philadelphia. Naval Officer—Robert Thompson, Philadelphia. Assessor of Internal Revenue—H. N. Smith, Fourth District, Wisconsin. Collectors of Internal Revenue—Wm. Johnson, Fifth District, Wisconsin; Alex. L. Crawford, First District, Pennsylvania.

CONFIRMATIONS.

The Senate was in executive session three hours, or until half-past ten o'clock, and confirmed the following nominations: United States Attorneys—J. L. Warren, Western District Tennessee. U. S. Marshal—J. M. Tomeury Western District Tennessee. F. J. Herron, District of Louisiana. Pension Agent—John T. Clements, Macon City, Mo. Postmasters—Addison S. McClure, Wooster, O. Assessor of Internal Revenue—T. J. Cypert, Sixth District Tennessee. Collectors of Internal Revenue—Wm. W. Webb, Sixth District Tennessee; John M. Cushman, Third District Missouri. Naval Storekeeper—S. J. Wailes, Washington. United States Consuls—Columbus E. Neally, Illinois, at Tabaco; Geo. D. Sidman, Michigan, at Schwerin.

UNITED STATES SENATE.

Day Spent in Executive Session.

WASHINGTON, April 17, 1867.

Mr. WILSON has returned to the Senate.

Mr. HENDERSON offered a resolution providing that there be printed for the use of the Senate 20,000 copies of the report of the Secretary of the Interior, giving information as to the number, location, &c., of the various tribes. Referred to the Printing Committee.

The Senate went into Executive session.

On reopening the doors, Mr. ANTHONY offered a resolution, which was adopted, for the appointment of a committee to wait on the President and inform him that unless he have some further communication to make, the Senate will adjourn to-morrow at 4 o'clock.

The Chair appointed Messrs. FESSENDEN and JOHNSON the Committee.

The Senate resumed Executive session.

At a subsequent stage of proceedings, Mr. ANTHONY, from the above-named committee, reported that they had performed the duty assigned, and the President requested them to inform the Senate that he would to-day make some further Executive communications, but at present he knew no reason why the Senate should not adjourn at the time fixed.

The Senate took a recess from 5 until 7:30.

SOUTH AMERICA.

The Belligerents Fortifying--Fight at Curupaity--Brazilian Officers Disgusted --Enlistment of Slaves--The Brazilian Navy, &c., &c.

NEW YORK, April 19.—Advices from Greytown, Nicaragua, to the 10th inst. are received. The new President had appointed General Don Thomas Martinez Minister to England. It is understood his mission will have reference to the settlement of claims of the Republic against the United States for damages done by the Walker raids and Greytown bombardment.

Advices from Rio Janerio to March 12th, and Buenos Ayres to February 26th, are received. Marques Caxies, who commanded the allies, and Lopez, the Paraguayan President and commander, are both busily entrencing and fortifying. The Brazilian officers are continually returning to Rio, perfectly disgusted with the war.

The enlistment of slaves in Brazil is continued. Numerous wealthy persons are making presents of large numbers to the government.

A fight took place at Curapaity on the 2d of February, in which all the iron-clads but one, and the land forces all around the line were engaged. The results to the Paraguayans are supposed to have been severe, although no lodgment was effected by the attacking party.

Proposals for peace by the American Minister are being seriously considered, although not well received at first.

The Brazilian navy on the La Platte consists of thirty-five vessels, 148 guns and 4,000 men.

The United States steamers Shamokin and Kansas are at Buenos Ayres.

From Boston.

BOSTON, April 19.—The House Committee on Railroads unanimously reported a bill in favor of granting State credit for three millions to the Boston, Hartford and Erie Railroad.

Judge Lowell, of the United States District Court, decided that the Clyde built steamer Syrea, captured in Ashley river, Charleston, when Charleston was surrendered, and which was brought to this port and condemned as a prize, was a prize to the Government and not to the blockading fleet as claimed. Her capture was as much the result of the army besieging as the navy.

Fire at Pomeroy, Ohio.

CINCINNATI, April 19.—A fire at Pomeroy last night destroyed Nye, Williamson & Co.'s flour mill; Cooke & Co.'s machine shop, and seven dwellings. Loss, $100,000. Amount of insurance not stated.

MEXICO.

Maximilian to be Honorably Treated.

Money Scarce in Imperial Treasury.

Skirmishing at the Gates of the Capital.

Miramon's Inhuman Order Countermanded.

Maximilian Wounded in the Arm.

ENGAGEMENT AT QUERETARO.

The Imperialists Driven Back.

Attempted Revolution in Lower California.

Puebla Captured by Liberals.

Maximilian Offers to Surrender.

NEW YORK, April 19.—The *Herald's* Mexico city correspondence, under date of March 17th, says: Juarez had given orders to his officers to grant Maximilian an escort and honorable treatment to any point on the coast which he shall select as a point of embarkation, *provided he is captured.*

Money was becoming scarce in the Imperial coffers, and the Finance Minister had thrown up his portfolio in disgust.

Skirmishes took place every day at the gates of Mexico city.

The savage order of Miramon, inflicting death upon all prisoners captured, was countermanded by Maximilian.

The story of Escobedo's defeat is believed to have been concocted at the capital.

The Austrian garrison were looking out for the earliest opportunity to leave the country.

NEW YORK, April 19.—A special from Washington to the *Herald* says a gentleman who arrived by the steamer Eagle from Havana, and left the City of Mexico on the 8th inst., informs the Mexican legation that Maximilian was at that time *en route* from Queretaro for Mexico, accompanied by about three thousand troops. He was wounded in the right arm by a spent ball in the fight at Queretaro, and narrowly escaped capture in one of the mountain passes.

The capture of Puebla by the Liberals was not generally believed in Vera Cruz, but was duly celebrated by the Liberal forces outside the city. The Imperialists regard the report as a ruse of the enemy.

The stage routes between the capital and Vera Cruz are entirely cut off, and it is with the greatest difficulty that any conveyance through can be obtained, the roads being infested with independent marauding parties and robber bands claiming no connection with the regular Republicans forces.

SAN FRANCISCO, April 19.—The egress of Maximilian's forces without giving battle is impossible. The rumors that the Liberal forces have been defeated and are suffering from a lack of supplies, are directly contradicted. The report of a revolution, headed by Herrera, at San Luis Potosi, is denied. Letters from President Juarez, received to-day, make no mention of disturbances taken place or anticipated.

Consul Godfrey has received a letter from Gen. Corona in reference to operations at Queretaro, March 16, which states that the Liberals made a reconnoissance in force, bringing on an engagement which lasted eight hours, and resulted in driving the Imperialists from some of their positions. The Liberal force was 26,000 and the Imperial 10,000.

Placido Vega was at Mazatlan four days in disguise, conspiring with his political friends, impressed with the belief that a party in Sinaloa would proclaim him Governor. The arms taken from here by Vega were hidden in the mountains, except a small portion given up to Gen. Parras.

Letters from Lower California give an account of an attempted revolution. Gaston D'Artois, April 1st, landed at Lapaz from Mazatlan, and proclaimed that Navarretta, the revolutionary exile, would reach the former place on the next steamer with two hundred men, and reinstate himself as Governor of the Territory. On the route from San Jose towards Lapaz, D'Artois enlisted a few Navarretta adherents and took San Antonio by surprise, and made prisoners of the officials. From San Antonio he went to Lapaz and attacked the house of the Governor, but found himself surrounded by soldiers. D'Artrois's small band fled and were pursued and overtaken. D'Artrois was ordered to be shot on the 9th of April. According to these facts, it is supposed the petty revolutionists contemplated a scheme of plunder, and in the event of success would have made American residents suffer among the rest. His designs were not countenanced by the Juarez Government. The story of the coming of Navarretta is without foundation.

NEW ORLEANS, April 19.—Advices from Matamoras to the 13th ult., report that the Liberals have captured Puebla, and that Maximilian offered to surrender, but his overtures were rejected, the Liberals refusing to grant the terms demanded by him.

HIGHLY INTERESTING.

NEW YORK, April 19, 1867.

EXPRESS CAR BURNED.

The express car of last night's express train west, on the Erie railroad, took fire near Chemung station, from sparks from the engine, and was totally destroyed. The contents of the car were consigned to parties west, in care of the United States and Merchants' Union Express. Loss $30,000. The safes containing money packages were saved. The express messengers had a narrow escape.

CORN SENT SOUTH.

Fourteen thousand bushels of corn were sent to Mobile to-day by the Southern Relief Association.

THE STRIKES.

All the carpenters, except about one hundred, have returned to work at four dollars per day. Those who are still striking are taking subscriptions to a fund wherewith they intend starting in the city a so-operative carpenter shop. The Plasterers' Association will not ask an increase of wages if the Governor signs the eight hour law. The tailors have denounced the employers who will not yield the two hours shorter time on Saturdays, which they demanded.

AMERICAN PROTESTANT ASSOCIATION.

The American Protestant Association celebrated the 338th anniversary of the signing of the famous protest by a meeting at Cooper Institute this evening. Mr. Nicholson, the Chairman, made a brief introductory address, concluding by throwing down the gauntlet to the Fenians. Subsequently other speakers addressed the meeting. The attendance was large, and the proceedings marked by great enthusiasm.

THETA DELTA CHI.

The twenty-ninth annual convention of the Theta Delta Chi Fraternity was held at the Astor House to-day. About fifty delegates from all parts of the Union were present, the leading universities and professions being represented. The special business of the Convention this year was to take measures for the organization of Southern Chapters of the Fraternity, and the restoration of the social intercourse and good feeling that existed before the war. To-morrow the Convention will listen to an oration from Judge Morris, of Brooklyn, to be followed by a poem from Jno. Brougham.

SPEAKER COLFAX

Is to lecture in this city for the Southern Relief Fund.

RIOT RELIEF FUND.

The Riot Relief Committee have sent to the Police Board $3,000 to be divided among the officers wounded in suppressing the riot on St. Patrick's day.

WITHDRAWN.

The steamer Havana has withdrawn from the route to Havre for want of adequate complement of cargoes and passengers.

SENSIBLE.

It is contemplated to erect one hundred and twenty-five public drinking fountains in this city the coming summer.

LOWER CALIFORNIA.

The Hartford *Courant* says that as soon as Maximilian is out of Mexico, a strong pressure will be brought upon the Juarez Government for the cession of Lower California to the United States.

YET ANOTHER VICTIM.

Samuel K. Hanson, of Fulton county, Illinois, *en route* to California, was swindled out of $1,100 in a confidence game by two men on the cars between Buffalo and this city.

Navigation of Lake Erie.

BUFFALO, April 19.—The schooner Republic, laden with lime, for Toledo, was towed through the ice to clear water last evening. She is the first vessel from Buffalo this season. A boat arrived from Detroit this afternoon.

The propellor Congress, which left Detroit on the 15th, laden with staves, arrived at 4 o'clock this afternoon, the first arrival of the season.

From Atlanta, Ga.

ATLANTA, April 19.—The Southern Press Convention, after a harmonious session of three days, adjourned *sine die* at one this afternoon, to meet at Augusta next year. The existing arrangement with the New York Associated Press continues.

Gov. Jenkins arrived from Washington this morning.

Death of a Pioneer.

SAN FRANCISCO, April 17.—Dr. Benjamin B. Coit, pioneer physician of San Francisco, dropped dead in the street last night; cause, heart disease.

Ratification Meeting.

PETERSBURG, VA., April 19.—A Republican mass meeting was held to-night to ratify the resolutions of the Richmond Convention.

OIL INTELLIGENCE.

Pithole Oil Field.

[From the Pithole Record, April 15.]

Never, since 1865, has there been so much confidence in the territory around Pithole as is now felt. Engines are being brought on the ground and rigs being erected on the bluff territory, and the results of the Roberts's Torpedo explosion in No. 18, has had the effect of drawing renewed attention to the resuscitation of abandoned wells on the flats. The feeling also prevails among operators that the price of oil has reached its lowest figures, and that hereafter the tendency will be upward until it reaches a fair figure. We trust it will not stop short of five dollars ber barrel at least, which is as low as it can be brought to the surface with fair remuneration to the operator. There is little change in the production of Pithole, since our last report, except the new well reported below. The bluff still yields largely, and the producing wells hold out remarkably on this territory.

We give below a brief summary of facts gathered in a stroll among the well on Saturday:

T. Holmden Farm.—No. 43 is yielding 20 barrels per day; New 42, 30 barrels; Old 42, 18 barrels; No. 3, Twin lease, has been recently experimented with in the way of putting in new valves, &c., in consequence of which it was not doing as well as usual, but will soon be up to its old standard again. She is pumping 10 barrels per day.

No. 1, same, is yielding 18 barrels per day.

A pumping jack has been put in operation at No. 46, and the well was finally started up on Saturday, and was making a fine show when we visited it. It is now pumping 15 barrels per day, and rapidly increasing. Will probably again rank among the best wells on Pithole creek.

No. 127 has been abandoned and the engine, rig, tanks, &c., taken away; No. 50, 6 barrels.

Old No. 76 produced a great deal of oil in the early days of Pithole, but like all flowing wells did not last long and has been lying idle for some months past. We were informed by Mr. Holmes, one of the owners, that the well was soon to be started up again. It is to be drilled deeper and otherwise experimented with. Hopes are entertained that it will again become a good paying well.

No. 150, 40 to 50 barrels; No. 252, 50 barrels; No. 247, 125 barrels; No. 248, 60 barrels; No. 245, 40 barrels. The valves have recently been changed in this well which will doubtless increase the production.

No. 244 will probably be torpedoed soon.

No. 246 is rapidly increasing in production. On Thursday last it pumped 126 barrels by tank measurement, and will, we think, average that amount of oil daily.

Well No. 250 has passed into the hands of Messrs. Bennett and L. H. Smith, and will soon be in operation again. The tubing has been in the well for some time past. While removing the same it was found that some unknown party had thrown about 500 feet of the sucker-reds in the well, and considerable difficulty has been experienced in getting them out. It has been thoroughly cleaned out, and will commence testing this morning. Under the personal supervision of Mr. Smith, as it is, we have no doubt it will again be brought up to the old standard of excellence.

No. 2, lease 250, commenced testing on Saturday, and almost immediately the precious fluid came to the surface. It is now pumping at the rate of 80 barrels per day, and will, doubtless, be one of our largest wells, and adds yet another link in regard to the value of our territory. The well is 720 feet deep, and was put down in the remarkably short time of 42 working days, by Messrs. H. W. Minnich and James Campion, and without accident. The hole is 5¼ round to the third sand rock. We congratulate our townsman, J. Strunk, Esq., on his good fortune, he being the owner of the well.

Booker Farm.—We note on this farm that a number of new derricks are going up, and were informed by Mr. Cole, superintendent of the farm, that active operations in regard to putting the wells down would commence at once. No. 18 has been started up again; also, the Elwood well and No. 17. No. 200 is yielding 20 barrels per day; No. 190, 150 to 200 barrels; No. 191, 70 barrels; No. 188, 30 barrels; old 110, 15 barrels; No. 15, 10 barrels. The seed-bag burst in No. 16 and the tubing had to be drawn up for repairs. No. 199, a new well, is down and was cased on Saturday. Testing will be commenced soon.

HINER FARM.

No. 1, Hiner Reserve, is pumping fifteen barrels per day; No. 1, Marine Company's tract, twenty-five barrels; No. 9, same, which was recently torpedoed, is now being tested; No. 10, same fifty barrels; No. 1, Fort Pitt Company's tract, is now pumping sixty barrels a day of pure oil. It is one of our best wells; the gravity of the oil is forty-five. No. 2, same, is pumping twenty-five barrels per day. The Levake well, fifteen barrels.

MOREY FARM.

No. 185 is doing fifteen barrels per day; No. 184, thirty to thirty-five barrels; No. 166 will be ready to test soon. The tubing was being drawn from No. 1, as it was thought something had got into the valve. Oil advanced on Saturday from $1 80 to $2 00 per barrel, and is now keld at that figure.

James McNair, Esq., has struck another well on the McNair tract at Tidioute, on the same lease as the Flora Well, and which "strike" is christened the "Sue Well." The new well is doing about two hundred barrels per day, being one of the largest wells in that section. The most remarkable feature of this well is the celerity with which it was put down. Mr. W. W. Thompson, formerly of Pithole, and who drilled several of the best producing wells on the Booker Farm, was the contractor for putting down the Sue Well, and completed the job, including tubing and casing, in just twenty-eight working days. The well is down 630 feet. If any one can beat this time we should like to hear of it.

Peculiarities of Construction.

THE MASON & HAMLIN CABINET ORGANS should not be judged by, or confounded with, melodeons, harmoniums, seraphines, or any other organs, or instruments of whatever name, made by other makers, because several of the most important improvements effected by Mason & Hamlin, and from which their instruments in a large measure derive their excellence, *are patented*, and cannot be used by any other manufacturers. Mason & Hamlin also exclusively employ certain machinery and processes of manufacture which give greater excellence to their instruments. It is these advantages, in connection with the extraordinary care and experienced skill employed by M. & H. which give to their instruments a distinctive character, and have won for them such unanimous and decided preference from the musical profession, and in comparison with other intruments by the judges of industrial fairs.

They respecifully call attention, therefore, to the fact that the *quality of tone of their instruments is peculiar*, and found in no other reed instruments, and that in other respects, scarcely less important, their superiority is not less obvious.

Among the important patents obtained by Mason & Hamlin may be mentoned the following:

1. THE AUTOMATIC BELLOWS SWELL (patented) is the most important single improvement effected in reed instruments in many years. It is more effective, more easily used and more simple, and so less likely to get out out of order than any other swell. It gives a wonderful power of expression, and so improves the capacity of the instrument one-half. The great value of the Automatic Bellows swell has led to many attempts to produce the same effects by other means, but none of them have proved successful. The practical superiority of this swell must be acknowledged by all candid, competent judges.

2. IMPROVED SELF-ADJUSTING REED-VALVES, (patented.) This is the most delicate and difficult part of the action of the instrument, and the introduction of these new valves has proved of the greatest value. Their action is more perfect, certain and reliable; the tones are rendered more prompt and equal, and are prevented from sounding when they should not. They are less liable to get out of order than any others.

3. WOOD'S OCTAVE COUPLER, (patented,) in effect nearly doubles the power of the instrument in which it is used, enabling the performer to produce not only the tones immediately connected with a particular key of the instrument, but also their octaves by touching the one key.

4. NOISELESS SAFETY VALVES, (patented,) prevent the hissing sound heard in many instruments.

5. THE IMPROVED COMBINATION REGISTER, (patented,) gives great facility for drawing and closing the stops.

From these and other peculiarities of construction, then, which cannot be used by other makers, much of the peculiar excellence of the Cabinet Organs is derived. C. C. Mellor, 81 Wood street, Pittsburgh, Sole Agent for the Cabinet Organs. Call and get or send for a circular. S&S

Unofficial information has been received in Washington from New Orleans, that some of the July rioters are to be tried by military commission, by order of General Sheridan. It is thought by many that a military commission under the reconstruction law has no jurisdiction over offenses committed prior to its passage.

INFORMATION received from the southwestern part of Virginia says that the prospects of the next tobacco crop look very favorable around Lynchburg; the tobacco plants on the plantations present a fine appearance, and it is said that with anything like a good season a sufficiency of plants will be easily attained to pitch the crop.

WASHINGTON.

Argument on Injunction Cases.

Appointment of Registers in Bankruptcy.

The Crop Prospects Favorable.

Special Dispatch to Pittsburgh Commercial.

WASHINGTON, April 19, 1867.

The Mississippi and Georgia Cases.

The counsel engaged in behalf of the Georgia and Mississippi injunction cases held a consultation to-day, and agreed that Charles O'Conner should address the Supreme Court in the Georgia case, and that Judge Black should speak on the Mississippi case. The arguments will be heard on the 26th, and a decision is expected as early as the succeeding Monday.

Registers in Bankruptcy.

Chief Justice Chase to-day took up for consideration the applications for appointments of Registers in Bankruptcy. The first will be made for New York and then Pennsylvania and the Western States will follow. The only commission already issued to a Register is that of ex-Governor Hamilton, of Texas, for New Orleans. The *Intelligencer* of to-day reports great suffering in Loudoun county, Va.: just across the Potomac from Washington. It says that many persons are bordering on starvation.

Crop Prospects.

The monthly report of the Agricultural Bureau, just out, says the indications of the wheat crop are generally favorable. The snows of the past winter and the general conformity of cold weather prevented winter killing in a great degree. The spring has been late, with less of alternate freezing and thawing than usual, and the young shoots as a result look green and vigorous.

PARIS, April 19.—Bourse dull and heavy. Rentes declined one franc.

LIVERPOOL, April 19.—No markets to-day.

SOUTHERN EDUCATION.

Circular from Dr. Sears, General Agent of Peabody Education Fund.

NEW YORK, April 19.—Dr. B. Sears, General Agent of the Peabody Education Fund, has issued a circular giving a somewhat detailed statement of the mode in which the Trustees of the Fund propose to apply the charity committed to their charge. He says the direct aim of the agent will be to encourage and aid common schools in the South; that in schools established, supported and superintended by the Southern people themselves, apart from this leading object the founding and maintenance of schools, will not come within his plan usually. Appropriations in moderate amounts will be made when schools are languishing or liable to be suspended for want of means of support. Similar aid, if necessary, will be given in places unsupplied with schools. Wherever citizens shall introduce them and undertake their support, all such aid is to be regarded as temporary.

In selecting schools to be aided and places to be supplied with them, those will be preferred in which destitution is greatest and the number to be benefitted largest. Normal schools or schools having normal departments will receive particular attention. A small number of these, furnishing the most perfect models of instruction, will be considered more important than larger numbers of an inferior character. Here also it is the purpose of the agent to aid others in their work, and not to assume the support of such schools.

Appropriations will be made only when the conditions stipulated between the individual or corporation and the general agent have been strictly complied with. Funds will not be given to literary or professional schools as such.

Applicants will make an estimate of the least possible amount necessary to meet their wants, and report the same at once to Mr. Sears, General Agent, or John E. Ames, General Traveling Agent, Atlanta, Georgia. Special arrangements may sometimes be made with these for the purpose of encouraging industrial arts or the education of teachers. The agent will not identify his efforts with any other association by placing funds at the disposal of its managers, but in any connection he may hold with benevolent or religious societies, he will pursue his own specific object by such means and appliances as he shall select.

At present there will be no agencies except a few in which the services rendered will be gratuitons. The agent will not, except in a few exceptional cases, have occasion to employ teachers. He can, therefore, aid such in obtaining places only by giving their names to the School Committee.

GAG LAW IN KENTUCKY.

A Union Candidate Prevented from Speaking by a Mob of Returned Rebels.

MAYSVILLE, KY., April 19.—The Hon. R. T. Parker, Union candidate for Lieutenant Governor, was prevented from speaking at Germantown to-day by a gang of returned rebels. He was warned that violence would be done him if he made the attempt. Part of the town was burned.

CITY MATTERS.

TEMPERANCEVILLE.—This borough has a population of nearly fourteen hundred.

THE ALLEGHENY WHARF.—The Allegheny city levee, above the Hand Street Bridge, has been graded and paved, and is now a good landing.

OUR THOROUGHFARES.—There are one hundred and sixty-one streets, forty-one alleys and sixty-five courts in Pittsburgh.

IN WASHINGTON COUNTY.—Judge Sterrett is setting on the bench in the Washington County Court, an important case being on trial.

NEW LINE OF HACKS.—A new daily line of hacks to Cannonsburg and Washington, will start from McDonald's Station, on the Pan Handle Railroad, on Monday next.

CORNER STONE LAYING.—The corner stone of the St. Mary's Catholic Church at Pine Creek, will be laid on Monday afternoon next, at two o'clock, by the Rt. Rev. Bishop Domenec.

CITY POOR FARM.—W. D. Patterson, Esq., has been elected Superintendent of the City Farm. Mr. Patterson occupied the position some years since, and proved an energetic and efficient officer.

MARSHAL OF LOUISIANA.—Major General Frank J. Herron, formerly of this city, was confirmed yesterday by the Senate as United States Marshal for the District of Louisiana.

TAX ON DOGS.—The Sewickley Council, at a recent meeting, passed an ordinance levying an annual tax on all dogs in the borough, and appointing a dog assessor to make an assessment on all the dogs.

BASE BALL.—We learn that the Hiawatha Base Ball Club, of Kittanning, having been re-organized, contemplate another match with the Enterprise Club of this city, for the championship of Western Pennsylvania.

FIRE THIS MORNING.—About half past one o'clock this morning, a fire broke out in the car shop of the Pennsylvania Railroad, at the outer depot. The building, which was frame, was totally consumed, and one locomotive was badly injured. The origin of the fire or the amount of the loss has not yet been ascertained.

PERSONAL.—Col. H. C. Moore, General Superintendent St. Louis, Alton and Terre Haute Railroad; J. M. Lunt, Esq., Superintendent Columbus and Indianapolis Railroad, and Josiah O. Stearns, Superintendent Central Railway, New Jersey, passed through the city on Thursday night, on their way west.

HOLY ORDER OF PRIESTHOOD.—The Rt. Rev. M. Domenec, Bishop of the Catholic Diocese of Pittsburgh, recently conferred the Holy Order of Priesthood on the following professed Fathers of the Order of St. Benedict, in the church attached to St. Vincent's Monastery: Revs. Andrew Hintenach, Eugene Phelan, Suitbert Demarteau, and Gabriel Gurster.

ELECTION IN SECOND WARD, ALLEGHENY.—In accordance with a resolution adopted by the Allegheny Councils, Mayor Morrison has issued a proclamation setting Thursday next, the 25th inst., as the day of holding an election for a member of Select Council in the Second ward, to fill the vacancy occasioned by the resignation of Mr. J. B. Smith.

FOUND DROWNED.—Found drowned, dead and alone! That is all we know as yet of the fate of a young girl, whose body, according to a Wellsville correspondent—was discovered floating in the Ohio river yesterday afternoon. She is said to have appeared to be about fourteen to sixteen years of age, but no identification of her had been made.

Quarterly Report of the U. S. Local Inspectors for this District.

The following is the quarterly report of the United States Local Inspectors for this District, presented in the United States District Court, and there received and filed:

OFFICE U. S. LOCAL INSPECTORS, PITTSBURGH, PA., April, 1867.

Hon. Wilson McCandless, Judge of the U. S. District Court of Western District of Pennsylvania:

SIR: We have the honor to submit the report of the operations of the Board for the quarter ending March 31, 1867.

Since our last report we have inspected forty-seven steamers of all classes, as follows:

Passenger steamers	18
Towing boats	28
Ferry boats	1—47
Tonnage of passenger steamers	7,473.84
Tonnage of towing boats	5,651.92
Tonnage of ferry boats	99.29
Total tonnage	13,225.05

Have issued licenses to seventy-one engineers and sixty-six pilots. During the quarter have examined the boilers of several steamers whose licenses have not yet expired, and ordered repairs, which were cheerfully and promptly made. Have suspended the license of the pilot of the steamer Arab for sixty days for violation of pilot rules. Have also suspended the licenses of the pilot and engineer late of the steamer Dexter—charge drunkenness—which charge was fully sustained by the evidence of nearly all of the crew of that vessel, and of others. Time of suspension unlimited. We have also refused to renew the license of Second Engineer, W. K. Gregg, from the same cause—intemperance.

We are happy to state that no accident to any vessel in which life was lost, has occurred in this district for the quarter just closed.

We have the honor to be, very respectfully, your obedient servants,

GEORGE H. ATKINSON,
SAMUEL WALKER,
United States Local Inspectors.

The Towboat Disaster--Death of Patrick McCall.

Patrick McCall, the fireman of the towboat Alex. Chambers, who was so terribly scalded by the explosion on Thursday, died of his injuries at the Mercy Hospital, about four o'clock yesterday morning. After the explosion he fell back into the hot water which was thrown from the boiler, and was literally boiled before he could be extricated. In addition to these injuries, one of his ankles was crushed. Dr. Donnelly, in attendance at the Mercy Hospital, gave him every attention, as did the Sisters in charge, up to the hour of his death. The deceased was twenty-eight years of age. The funeral will take place this afternoon at two o'clock, from the residence of his uncle, Mr. James Casey, Fayette street, Manchester. Coroner Clawson has been notified, and will hold an inquest on the body this morning at half past nine o'clock. An investigation into the cause of the explosion on the towboat will be had before the United States Local Inspectors for this District. The investigation will commence on Monday next, and will probably occupy several days.

Sudden Death--Inquest.

Christina Peters, a German woman in the employ of Augustus Kleber, on Webster street, as a domestic, was found dead in her bed yesterday morning about six o'clock. The deceased appeared to be in good health until Thursday evening, when she complained of feeling unwell. She retired to bed about one o'clock. Suspicions having been raised that she poisoned herself, Dr. A. M. Pollock, at the request of Coroner Clawson, made a *post mortem* examination of the body. A jury was empanneled, and an inquest held by the Coroner. Dr. Pollock testified, that having made a *post mortem* examination of the body, he found no evidence of disease in any of the vital organs, excepting the womb—she having been recently pregnant. There was no evidence of corrosive poison, and nothing to account for the sudden death. A number of other witnesses were examined, but no additional testimony of any importance was elicited. The jury returned a verdict of death from unknown causes. The deceased was twenty-eight years of age, and but recently came from Germany.

Temperance Convention in this City.

Rev. G. D. Chenowith, Corresponding Secretary of the Temperance Union for Pennsylvania, has spent some days in this city in consultation with the pastors in this vicinity in reference to holding a Temperance Convention here. It has been agreed to hold such a Convention, for the district of Allegheny county, to open April 30th, at 7 P. M., at the First Methodist Protestant Church, on Fifth street. Temperance organizations in this city and throughout the county, are invited to send delegates to the Convention, and co-operate in the work to be done. All pastors throughout the county are regarded as members of the Convention, and requested to call attention to it in their respective congregations, stating the time for holding it, and inviting a general attendance. It is requested that at least five delegates be sent from each congregation to the Convention.

PROF. ROCKWELL ON COAL AND COAL MINING.—The audience at Masonic Hall last evening to hear Prof. Alfred S. Rockwell, of Yale College, was larger than that which turned out on Tuesday night to listen to his first lecture on Coal and Coal Mining. Prof. Rockwell furnished his audience with an interesting account of the various methods adopted in foreign countries to work the coal fields of those regions, and showed the superior advantages we possess in the United States; and especially in this section of the country, not only in the extent of our coal beds, but in the entire absence of those obstacles which oppose the coal miner in Europe, at almost every step of his progress. Prof. Rockwell concluded his remarks with a short account of the comparative coal yield in Europe and America. He clearly demonstrated that coal lies at the foundation of our national greatness, and that "in the course of human events," the supply of England must give out as a consequence of the immense drain upon it, and that the greater part of Europe is dependent upon her for the important article. It is easy to foresee what country will be the great empire of the world, after another century or so has passed away.

COURT OF COMMON PLEAS.—Before Judge Mellon.

John S. Hope vs. Wm. Aston. Action to recover the value of a horse. Jury out.

A motion for a new trial in the case of J. W. Smith & Co. for use vs. Charles A. Hardy was made, and reasons therefor filed.

John J. Gable vs. Charles Mertz. Action to recover on a promissory note for $500. Verdict for plaintiff for amount of claim, with interest.

Rothschild & Lyer vs. J. G. Hoertz. Action to recover $650 90, alleged to be due on a purchase of some cattle. Verdict for plaintiff for $708 82.

John C. Couch vs. John Eastman. Verdict for plaintiff for $35 75.

TRUNK FOUND.—About seven o'clock yesterday morning, officers Joseph Campbell and Hess, of the Allegheny day police, found a trunk in the lumber yard near the railroad crossing, in the Second ward, Allegheny. It was undoubtedly stolen, as the lock had been broken, the trunk forced open and the contents strewn over the ground. The trunk contained a pillow case, a child's play cradle, a shirt, a pair of drawers, a pair of shoes, a lock of golden hair, some dishes and some smaller articles. The robbers, it is supposed, rifled the trunk of what was valuable, and left the remainder. A card, containing the name of the owner, was tacked on the top of the trunk, but most of it was torn off, so that the name was not legible. The trunk is at the Mayor's office, Allegheny, awaiting an owner.

CITY MORTALITY.—Dr. A. G. McCandless, Physician of the Board of Health, reports the number of interments in the city for the week ending April 14th, 1867, at twenty. The causes of death were as follows: Consumption, five; whooping cough, three; old age, one; eclampsia, one; accident, one; paralysis, one; apoplexy, one; disease of heart, one; atony of stomach, one; spasms, one; debility, one; stillborn, one; typhoid fever, one; disease of lungs, one. Of the above, twelve were adults, and eight children. Males, twelve; females, eight. White, nineteen; colored, one.

THE NEXT STATE FAIR.—The President and members of Board of Managers of the State Agricultural Society are in this city for the purpose of consulting with the Committee from the Allegheny County Agricultural Society, in reference to holding the next State Fair in this city. The gentlemen have visited our Fair Grounds and expressed satisfaction with the grounds, buildings, means of access, &c., but noted objections to the shortness of the race track, the scanty supply of water, &c. The Committee will submit an official report for publication in a few days.

PROBABLY FATAL ACCIDENT.—A large piece of coal rolled from one of the cars of a coal train on the Pan Handle Railroad, while passing through Monongahela Borough on Thursday evening, striking a girl named Mary Dixmond on the head, inflicting a terrible gash and fracturing the skull. The girl was attended by Drs. Roberts and Murdoch, who have very little hopes of her recovery. She is about ten years of age, and is an orphan, her father having died about a year ago of disease contracted while in the Federal army.

CORONER'S INQUEST.—The jury empanneled by Coroner Clawson to investigate into the manner of the death of John McCann, who was killed by being run over by a coal train on the Connellsville Railroad, on Thursday, assembled at the Mayor's office yesterday morning. The only witness examined was Dr. J. A. Phillips, surgeon of the road, who testified as to the nature of McCann's injuries. No other witnesses being present, the inquest adjourned until Monday evening, at seven o'clock.

FORTY HOURS' DEVOTION.—The Devotion of the Forty Hours, by the Catholic Church, in honor of the Most Holy Sacrament, will commence on April 28th, at St. John's, Altoona; May 5th, at St. Patrick's, Pittsburgh; May 5th, at St. Joseph's, Sharpsburg; May 5th, at St. Michael's, Birmingham; May 12th, at St. Aloysius', Summit; May 19th, at St. Alphonsus', Morrisville; May 26th, at St. John's, Harman's Bottom; May 21st, at St. Andrew's Manchester.

RAILROAD CONVENTION.—A convention of prominent railroad men, consisting of J. H. Devereux, Cleveland; E. A. Fisher, New York; A. H. Lewis, Cincinnati; W. F. McClintock, Chillicothe; J. O. Sterns, New Jersey; Geo. Caven, Philadelphia; I. N. McCullough and others, was held on Thursday at the Monongahela House, for the purpose of discussing various matters pertaining to the railroad interest.

NEW HOSE.—The Committee on Fire Engines and Hose of the City Councils have entered into a contract for some three hundred feet of the new patent combination hose. This hose was tested by the Vigilant some days since, and gave complete satisfaction. It is probable that all the companies in the department will be provided with supplies of this new hose shortly.

POLICE APPOINTMENTS.—The Police Committee of the Allegheny City Councils held a meeting on Thursday evening, and appointed to the police force the additional officers rendered necessary by the addition of the Fifth ward (Manchester): Sanford Christ, of the Fifth ward, was appointed on the day police, and Alex. McQuiggens, Hiram Woods, Wm. Knight and Wm. Weir, on the night force.

I. O. O. F.—THANKSGIVING AND PRAYER.—J. H. McCausland, D. D. G. M. of I. O. O. F. of this district, has requested the members of the various lodges in the district, with their families, to meet on the 28th inst., in the Fifth street and Smithfield street M. E. Churches, where service in accordance with the proclamation of the Grand Sire of the Order will be held.

REPUBLICAN EXECUTIVE COMMITTEE.—A meeting of the Union Republican Executive Committee of Allegheny county, will be held this afternoon at two o'clock, at the office of the Chairman, John W. Riddell, Esq., No. 135 Fourth street. A full attendance of the members is requested, as the time for holding the Nominating Convention will be fixed, and other important matters discussed.

THE STREETS OF SEWICKLEY.—The borough Council of Sewickley, at their last meeting, passed an ordinance, authorizing the widening of Crooked street, from Hopkins to Locust streets, from thirty-three to fifty feet. The same street was also widened and extended as a street, fifty feet wide, to Beaver street, and that portion of it designated as Lincoln Avenue.

Public Amusements.

OPERA HOUSE.—For the benefit of Madame Scheller last evening there was presented the translated French melodrama of "Madelaine; or Love and Duty." In the part of the heroine Madame Scheller achieved a great and glorious success, and was enthusiastically called before the curtain at the end of both the third and fourth acts. She was most effectively supported by Mr. W. H. Leak. To-night "The Savoyards in Paris" will be played—with Madame Scheller in the principal; the excruciating farce, called "A Quiet Day"—wherein Messrs. Hotto and Hall are simply immense—being the after-piece.

SATURDAY MATINEE.—"Our American Cousin" is to be performed this afternoon at the Opera House. The distribution of parts is really very complete and satisfactory.

VARIETIES THEATER.—An irresistibly attractive programme is provided for the patrons of the Varieties. It will be a regular old-fashioned Saturday night's festival of fun, frolic, mirth and melody, regarding which it would be difficult to predict who would be most satisfied—the admirers of dance, song, negro comedy, pantomime, or melodrama.

A Card From Walter Brown.

GLENWOOD, April 19, 1867.

To the Editor of Pittsburgh Commercial:

In duty to myself and friends of Pittsburgh, and all those who intend investing in my chances of competing with James Hamill, I would like to say a few words, and if you will publish the same over my signature you will greatly oblige an aspirant to the championship, who has traveled nearly nine hundred miles to row for the same.

When I made the match with Mr. Hamill, I appealed to his honesty and reputation of fair play to select a course upon which to row the race. I will acknowledge that Mr. Hamill is Champion Oarsman of America, and his reputation as an honest man and a fair dealing orsman is A No. 1 in New England. The course he has selected to row on is by no means a fair one for any stranger, and especially when there are other waters so close to the city of Pittsburgh.

I would not say one word, but I have been over the lower course every day since my arrival, and the current of the Allegheny has not been the same on any two days, and in some instances the same, with but an hour's elapse of time. Now, if this lower course is so changeable, how can a stranger learn it in so short a space of time? I know as well as Mr. Hamill can tell me that as the articles of agreement read, I am compelled to row over this unfair course; and if Mr. Hamill intends to abide by the articles strictly, and will not change the course from the lower to the one where Ward rowed, I advise all those friends who intend to invest their money on the result to keep all they have got in their pockets, as I consider any man that whips Hamill over this course, where he has rowed all his lifetime, is at least one and a half minutes faster than the champion himself. I don't pretend to say that I am this much faster, but as I have come so far to cross oars with a man that has proved himself conqueror of all America, I will do the best I can, and should I lose, I trust my friends will consider what I have told them in advance of the event of day.

WALTER BROWN,
Of Portland, Maine.

The Disaster on the Pennsylvania Railroad--Conclusion of the Investigation.

The jury empanelled by Coroner Clawson to inquire into the facts connected with the death of Martin L. Bracken, who died from injuries received on the Pennsylvania Railroad, on Sunday, the 7th inst., re-assembled last evening at the Mayor's office, and resumed the investigation.

Samuel Dobson, Supervisor of the track, was sworn, and testified that workmen had been employed in repairing the track at the place the accident occurred; several rails and ties and a keg of spikes had been left there by the workmen.

Michael Madigan, foreman of sub-division No. 92 of the road, testified that on Saturday, the 6th inst., men were engaged in repairing the track, and the ties had been distributed along the road. An iron rail and a keg of spikes had been left about two hundred feet west of the point where the accident occurred. The keg had been placed in a ditch, so as not to interfere with the trains.

Christopher Brittner testified that three iron rails had been placed along the road on the 6th inst., by the workmen, about two hundred and fifty yards from where the accident occurred. Several ties had also been left at that point. Did not think one man could carry an iron rail that distance. It required a stout man to lift one end of a rail.

Fred. Fleck, engineer of the church train, testified that his train passed the place where the accident occurred about 9:20 o'clock on Sunday morning, the 6th inst. A great many people were passing in the vicinity. Both tracks were unobstructed at that time.

Bernard Garvey testified that he passed along the road between seven and eight o'clock on Sunday morning, the 6th inst. Remembered seeing the ties, rails and keg of spikes referred to by previous witnesses.

There being no further witnesses, the jury, after a short deliberation, returned the following verdict: "That Martin L. Bracken came to his death on Monday, April 8th, 1867, in the city of Pittsburgh, from the effects of injuries sustained on Sunday, April 7th, by a wrecking of the train on which he was employed as brakeman. The jury further find that the track was wilfully obstructed by some person or persons unknown, and that circumstances point strongly to Patrick Monaghan as a guilty party. The jury deem it not improper to state that considering the time and place chosen and the manner in which the track was obstructed, no ordinary care or attention on the part of the officers of the road, or the train could have prevented the accident."

The Sproul Murder---Removal of Bird and Whittaker to Washington County.

A letter was received on Thursday by John W. Riddell, Esq., Assistant District Attorney, from Hon. Boyd Crumrine, District Attorney of Washington county, requesting him to appear and represent the Commonwealth at the hearing which was to have taken place to-day before Alderman Strain, in the case of John M. Bird and Thomas Whittaker, charged, on oath of officer Seth Wilmot, with the murder of David Sproul, in Washington county, on the 18th of March last. The question of jurisdiction was brought up in the Court of Oyer and Terminer yesterday, when it was decided that, since the crime was committed in Washington county, an Allegheny County magistrate had no jurisdiction in the case. An order for removal was accordingly issued by Judge Mellon, and at one o'clock yesterday afternoon, Sheriff Cluley and Warden White started with the prisoners in a carriage for Washington county.

Accident on Connellsville Railroad.

Yesterday morning about half past nine o'clock the morning express train on the Connellsville Railroad while rounding the curve at Hussey's Copper Works, two miles from this city, struck a little boy two years old son of Mr. Daniel Neal. Mrs. Neal had crossed the track for the purpose of getting a bucket of water, and was followed by her little son. She noticed the approach of the train, and endeavored to attract the attention of the engineer, but did not succeed in doing so until the child was struck on the head by the cowcatcher, and thrown against the bank. It was immediately picked up and conveyed to the residence of its parents. Dr. Taylor, of this city, who happened to be on the train, attended to the child until the arrival of Dr. J. A. Phillips, surgeon of the road. The injuries were ascertained to be very severe, and but slight hopes were entertained of the recovery of the little sufferer.

Destruction of the Paragon Oil Works.

Yesterday afternoon about two o'clock, a fire broke out in the Paragon Oil Works, located at Wood's Run, McClure township, which resulted in the total destruction of the building and contents. The fire is supposed to have originated in the receiving house, and it spread so rapidly that all efforts to arrest its progress proved unavailing. Messrs. H. R. Irwin & Co., the proprietors, estimate their loss on stock, fixtures, etc., at $5,000, upon which they have an insurance of $2,000 in the United States, of Baltimore, and Beckman Companies of New York. The buildings belonged to the estate of the late Mrs. E. Y. Patterson, were valued at $5,000, and were insured for $2,000 in New York companies.

POLICE INTELLIGENCE.

[Before Alderman Strain.]

A FEROCIOUS DOG.

Mrs. Mary Blake appeared yesterday and lodged an information against Mrs. Mary McGarvey, for keeping a ferocious dog. She alleges that the dog tore her dress. The parties reside in the Ninth ward. The case was settled.

FALSE PRETENSES.

John Pinkerton was arrested on a charge of false pretenses, preferred by Peter Bayne. The parties were employed on a raft, and Bayne alleges that Pinkerton obtained a watch from him, promising to pay him for it when they arrived in this city, which he failed to do. The parties settled the case.

LARCENY AS BAILEE.

Alonzo Phillips was charged with larceny as bailee, on oath of James Gilliland, of Allegheny. The deponent alleges that on the first of March the defendant obtained from him a silver watch, valued at twenty dollars, promising to pay him for it within three weeks, which he failed to do. The accused was held in $300 bail for trial.

THE BURGLARY AT BUENA VISTA.

A hearing was had in the case of Howell Douglas, Thomas Douglas and James Mansfield, charged with burglariously entering the store of C. L. Lucas, at Buena Vista, and robbing it of several hundred dollars' worth of goods. Owing to the absence of important witnesses, the case was held for a further hearing on Friday next.

CROSS SUITS.

Ebenezer Ott preferred a charge of assault and battery against Charles Daly. Ott alleges that Daly knocked him down and otherwise abused him, all about a pet cat. Ott wass arrested and held to bail. A cross-suit was instituted by Daly against Ott on the same charge. A hearing was had and Daly held to bail. Ellen Daly, wife of the defendant and prosecutor in the above suits, preferred a charge of the same character against the wife of Ott. This was followed by another cross-suit in which Sarah Ott vs. Ellen Daly appear as prosecutrix and defendant.

FELONIOUS ASSAULT AND BATTERY.

Thomas Nolan made information charging B. Auth, keeper of a beer saloon on Smithfield street, with felonious assault and battery. The prosecutor says that on Wednesday evening he, with a friend, got a glass of beer at Auth's, in payment of which he tendered a one dollar bill. In change he received, among others, a fifty cent piece. Thursday he found that the fifty cent note was bad, and in the evening returned to have it redeemed. When he asked for its redemption, Auth, he alleges, denied it, and called him a liar, and violently assaulted him. The accused was arrested and held in $1,500 bail for his appearance at Court for trial.

[Before Mayor Morrison, of Allegheny.]

FIGHT IN A BEER HALL.

Four men named Silas Sterrett, Joseph Hunt, Louis Broad and James Broad, were arrested on Thursday night by the Allegheny police, for raising a disturbance in the beer hall of Fredinand Schlochter, in the Fourth ward. The parties entered the tavern while intoxicated, and upon the proprietor refusing to give them any drinks, they raised a row. Two of them pulled off their coats and attempted to strike the bar-keeper. They also broke two panes of glass. The parties were brought before the Mayor yesterday morning, but Mr. Schlochter refusing to prosecute them, they were discharged by paying nominal fines and the damages.

[Before Alderman Lindsay, of Allegheny.]

LARCENY.

Mrs. Kettery, who resides in the Third Ward, Allegheny, appeared yesterday and lodged an information against Mrs. Pinkerton, a market woman, charging her with the larceny of three dollars. The accused was held for a hearing.

[Before U. S. Commissioner McCandless.]

WAIVED A HEARING.

Robert Black, charged with having in his possession counterfeit Treasury notes, waived a hearing yesterday and entered bail in the sum of five thousand dollars for his appearance at the June term of Court for trial.

[Before Alderman McMasters.]

A CROSS-SUIT.

B. Auth, who was charged before Alderman Strain with felonious assault and battery on Thos. Nolan, yesterday appeared before the above magistrate and entered a cross-suit against Nolan for assault and battery, alleging that the latter struck him a severe blow on the eye. A warrant was issued.

[Before Alderman Thomas.]

ARRESTED ON TWO CHARGES.

Officer Richards yesterday arrested a man named Ezekial Morgan, at Bellview, charged with the larceny of a cap valued at two dollars, and obtaining boarding to the amount of thirty-five dollars, from Mrs. Margaret Sheppard, of Beck's Run. The prosecutrix withdrew the charge on the defendant liquidating the board bill, paying for the cap and paying the costs in the case.

THE failure by the Great Eastern to obtain even what for an ordinary steamer would have been an ordinary list of passengers, is regarded as a significant prelude to the collapse of the Paris Exposition enthusiasm. Already the impression is abroad that the thing is a failure—in Paris as well as in England, and at home here. Letters represent the Parisians in the dumps on account of the meager attendance—meager, that is, compared with their Great Expectations and preparations. The case as it stands is not one likely to have a good effect on the Emperor—who just at present is more like the setting sun from whom men turn, than the rising God of day, before whom they instinctively bow down.

THE Government will act wisely in sending out an expedition—which it is preparing to do—to explore our possessions newly acquired from Russia. The expectation of the public seems to be that something more valuable than ice will be found, and that as the result of the exploration and the better knowledge soon to follow, the tide of emigration will, before long, begin to set thither. Already, no doubt, thousands of adventurous spirits have their thoughts turned toward that region; and we venture to say that since the treaty came upon the *tapis* more actual geographical and kindred knowledge has been acquired of that quarter of the globe than during all the last twenty years put together. Coming into our hands right at the moment of the reversal of the course of commerce with China and Japan, the bearing of the acquisition on that field of enterprise is at once perceived; though, high as the appreciation of it undeniably is in this respect, its importance is, of course, not yet fully understood. To say the least, in the minds of the people, it is a quarter of the globe of which are entertained great expectations.

WHAT NAME?

What shall our newly purchased out-lot be be named? Geographers have hitherto left it out in the cold without a name, only designating it, after the dog-collar fashion, by the name of its owner. But it cannot be called Russian-America after it becomes the property of JONATHAN himself. It has not a history nor a literature to furnish it a name, and the nomenclature of its limited local geography is not particularly attractive. We are sure nobody would vote for Nunivak of Taliknittabena, Kodiak has too much of a catarrhal sound to be acceptable, and the warmest partisans of Mr. SEWARD would give up the bargain rather than call it by one of its scragged geographical names, Anstachpakpak. But euphony must not be reported absolutely wanting in the home of our Esquimaux adopted citizens. The names of Spanish geography, famous from their flowing and musical sound, are rivalled in our recent accession. Aliaska, Sitka, Aleutia, Chulilua are pretty names, that do not require the aid of contrast to set them off.

But as the American people have the naming of this new child of the Republic, we should not wonder if they would follow the precedent set in christening its next neighbor on the Western Shore, and call it LINCOLN, and thus the two names associated in the history would be associated in the geography of the country.

THE GREAT TRUNK ROADS.

The policy of the old main-trunk lines of railroad running east and west is, to extend and form new connections westward as far as possible. In this respect they are all alike. They could not be otherwise, because the policy is not a happy contrivance of sagacity, but simply an obvious and unavoidable accommodation to the exigencies of business in the country. The irrepressible West and Northwest, the wealth and products of which are just beginning to be developed, are seeking an outlet for their agricultural productions, and an inlet for their needed supplies of merchandise. And these roads are each wisely grasping for its share of the business.

The New York Central has established connections by the Lake Shore and the Columbus roads to Cincinnati, and is feeling further west. The Erie, and the Atlantic and Great Western, broad gauge, have connection by the Ohio and Mississippi (same gauge) to St. Louis, and run cars for passengers and for freight from New York to St. Louis without change. The Baltimore and Ohio road is as lively and energetic as any in giving efficiency to this common policy, intending to control the Marietta and Cincinnati road, and so, with the aid of a bridge at Parkersburg, have a continuous route from Cincinnati to Baltimore, Philadelphia and New York.

The Pennsylvania Central is pushing its aspirations and energies westward, even more ambitiously than any of the others. Among its more distant projects, having already by the Fort Wayne and the Steubenville roads excellent facilities both Northwest and West, it has lately secured the Columbus and Inianapolis road, as an extension of the Pittsburgh and Columbus, and contemplates the acquisition of the Indianapolis, Terre Haute and Alton road to St. Louis. Thence its connection with the Central Pacific will be effected, and a continuous route under uniform management will be extended from Philadelphia and Pittsburgh to Indianapolis, St. Louis and the western terminus of the Pacific Railroad, until this is finally carried to San Francisco.

In view of these demonstrations of eastern enterprise Cincinnati feels about its western connections very much as Pittsburgh does about its eastern. The city of Cincinnati is pretty well off for roads terminating there from the east, as we are for western roads, but it feels the necessity, as we do, for better splicings in order to facilitate the extention of business. The policy of the Pennsylvania road is seen to be unfavorable to Cincinnati, inasmuch as its own great western route, via Columbus, Indianapolis, &c., leaves that city off, at the left hand. And it therefore is looking sharply and earnestly for some counter-acting facility. The language of the press is, "it will not do for our people to go to sleep while these powerful corporations are tapping the country around us."

We like to see and we heartily applaud our Central road for the energy it is showing to bring all the western business that it can do into its own hands. But we do not and cannot see it to be wise to oppose, with the magic power it seems to have in our legislature, all efforts to secure additional facilities eastward. It will evidently be impossible for their present road to do all the business that will pour in at this center from all its western connections and all the other roads. The business will be sure, as the Cincinnatians see in their case, to seek other channels, leaving the Central and leaving Pennsylvania at one side.

CONSIDERABLE amounts of Mexican bonds have been negotiated in New York within the past year, at seven per cent., semi-annual interest, which falling due within the last few days sent the bonds to protest, to the dissatisfaction of the holders. The negotiations were at rates ranging from ten to sixty cents.

THE EIGHT HOUR LAW.

There will soon be an opportunity to see how legislation, in favor of the eight hour system, will stand the test of application to practice. The Illinois law is to go into operation on the first of May. Viewing it from this distance, we cannot see much likelihood of the expectations of its friends being realized. Unless they have a peculiar kind of human nature in that State, the expectations are more probably destined to disappointment.

It is perfectly competent for a Legislature to define a day's work to be eight hours' work, or any other number of hours desired by their constituents, just as it may prescribe the capacity of weights and measures, the number of pounds of flour or gallons of oil in a barrel. But there is no necessary connection between such a law and the price of wages, in the former case, any more than there is in the latter, with the price of flour or oil. That is still to be arranged by contract, between the parties. And judging by the ordinary action of human nature, employers will not be reconciled, by the mere passage of such a law, to the paying of the same wages for eight hours' work as for ten. And as the law does not and cannot prescribe anything about wages, they will undoubtedly consult their own interests and wishes in bargaining for labor, just as they did before the eight hour law was passed. In other words, wages will inevitably conform to the time of labor and the amount of work done. A difference of twenty per centum in a large contract is an item that will not be likely to be overlooked.

In the meantime, however, this illusive legislation is calculated to occasion great confusion and embarrassment in business. Should the result of the application of the law be, as above intimated, the first effect will be extensive strikes, with their invariable injuries. And the suspense and uncertainty of consequences will prevent contractors from making contracts for future fulfillment. Not knowing how that 20 per cent. margin is to be filled up—whether with productive labor or with idle time—contractors cannot venture either to engage work or to employ hands. And hence will follow embarrassment to business of all kinds, and injury to all classes.

The question whether eight hours shall be a day's work and its wages be the same as ten hours or twelve, is not between employers and employed alone. It affects every person in the community. It involves an addition of 20 per cent. to the price of every article of traffic. We do not intend to discuss the subject, however, and have only been led to notice it, in connection with the approaching practical test of its influence in Illinois.

RIGHTS OF MAJORITIES.

Generally majorities can get their rights, but there are some exceptions. The rights of minorities are sometimes jeopardized, but there are cases in which they have more than their rights, at the expense of the majorities. The liquor traffic is an example of both. The majority of the citizens and of the population being against the established usage of selling intoxicating liquors for drink, believing it to be detrimental to society, they have a right to prohibit the practice, and to enforce the prohibition. But every effort that has been made to do so, has been frustrated by the influence and action of the minority, who claim the right to continue the traffic.

In other parallel matters, the right of the majority is not contravened, although it has no other basis than this has. The sale of poisonous or dangerous drugs is strictly guarded by law, in order to secure the good of society. The law against carrying concealed weapons, though often evaded and disobeyed, has never been opposed or denounced, as laws prohibiting or closely restricting the sale of liquors for drink have been. But the good of society has claims as well founded and much stronger in this case. And the admitted right to license implies an equally well settled right to refuse license, and prohibit. The argument used against this would be equally strong against the prohibition of deadly weapons, or in favor of lotteries or any other kind of gambling.

The rights of majorities are usually waived on this particular subject, in deference to the will of the minority. And the safety and welfare of society are sacrificed for the sake of the interests and appetites of a small minority.

Crop Prospect in Southern Illinois.

A correspondent of the Chicago *Times*, writing from Jonesboro, says: "We have had a week of very fair, dry weather; but it is now setting in to rain again. Winter wheat has not looked so well all through Egypt as it does now, for many years. Peach trees are now out in full bloom, and the prospects for a large crop were never better. There is very little danger from frost so late in the season. All other fruits, are so far, uninjured."

The McCoy Murder.

The preliminary examination of Lewis K. McCoy, before Justice Oliver, in Steubenville, for shooting Joseph McDonald, at McCoy's Station, on the 16th inst., has resulted in his being held for murder in the first degree. We learn from the Steubenville *Herald* that Justice Oliver, on recommitting the prisoner to jail to await the action of the Grand Jury, which will meet in June next, said that, although he was opposed to capital punishment, he felt satisfied that the evidence in the case warranted him in his opinion, that Lewis K. McCoy killed Joseph McDonald without provocation. He was accordingly remanded to the custody of the Sheriff. The counsel for the defense notified the Sheriff and Prosecuting Attorney that he would have a hearing in the case within three days, before the Probate Judge.

Count Bismarck on Universal and Direct Suffrage.

Count Bismarck lately made the following observations at the sitting of the German Parliament: "Universal suffrage is a legacy which has been transmitted to us by the national aspiration for German unity. The governments would prefer a different system, but they have not proposed any substitute. I know nothing more absurd and more pitiful than the Prussian law which sanctions election by classes and by indirect suffrage, caprice and harshness accompanying the tax-rated suffrage. It would not be prudent to combine the right of the suffrage with social or class distinctions. Indirect suffrage alters the expression of public opinion; direct and universal suffrage will introduce talent into Parliament." These observations were received with loud cheers.

THE mad dog excitement has broken out afresh in Chicago. A number of persons—namely, children—have been bitten by dogs said to have been mad. As they promptly kill the dogs at once, everything is left in painful uncertainty—a state well calculated, if anything can, to superinduce hydrophobia. The war of extermination has been renewed against the canine race. Meanwhile men and women continue to murder each other, and children are slaughtered almost daily. Everything is as quiet as a summer day as to the cause, which in nine cases out of ten is whisky. Kill the dogs but license the rum shops.

THERE is a rush to the alleged gold mines in Canada. Gold is reported in alarming quantities, and of the richest description. Fabulous returns are made from rock and dust, and claims sell at hundreds of dollars the acre. Already a lively tide of emigration sets toward Madoc, but how lethargic will be the "swash" of the ebb, when the disappointed and penniless gold seekers start homeward. As yet it is all an uncertainty—but in the new States and Territories there are millions of acres of land more valuable than anything in Madoc.

THE Loyal League in New York adopted resolutions strongly denunciatory of the Legislative corruption as practiced at Albany, and sent them to the Legislature. After discussing them for a time the Legislature sent them back to the Leaguers. The accusation was too true to be taken as a joke.

MR. J. S. CUMMINGS, Tuscola, Illinois, says he has raised potatoes from a white sprout, this winter, outside of any hot-house, in a space of thirty days. He says, furthermore, he can raise them any month in the year, and challenges better ones than he produces.

CHIEF JUSTICE CHASE has designated justices, Nelson, Swayne and Miller, of that Court, a commission to prepare the forms and practice to be employed under the Bankrupt law which goes into operation June first. Mr. Clinton Rice, of New York, has been choosen Secretary of the Commission.

VIRGINIA WHEAT CROP.—From all our exchanges we get glowing accounts of the prospect of the wheat crop. So far as we can learn from conversation with gentlemen from the surrounding counties, the prospect is equally good hereabouts. This is cause for heartfelt gratitude in view of the great scarcity of breadstuffs all over the land.—*Petersburg Express.*

BELLAIRE, OHIO.

Its Business Advantages—Railroad Center—Coal—Railroad Bridge.

Special Correspondence of Pittsburgh Commercial.

BELLAIRE, OHIO, April 18, 1867.

Persons in your over-crowded city will find a very desirable opening for business of almost any description in the flourishing and rapidly growing town of Bellaire, Ohio. To those not conversant with our combined advantages, I will enumerate a few of the prominent.

Here is the terminus (not way station) of three railroads, those powerful pioneers of industry, development and prosperity. The Central Ohio, which has always done a heavy trade, and is now doing more than at any previous period in its history, under the management of that crafty and aggrandising body, the Baltimore and Ohio Railroad Company, who have leased it for a term of twenty years, has its terminus here. Also the Wheeling branch of the Cleveland and Pittsburgh Railroad. This Company is now having erected a large passenger and freight depot, near the site of the old one, suitable for the increased amount of business which they expect to do at this point.

The Baltimore and Ohio Road divides its terminus somewhat between Bellaire and Wheeling, the latter city being four miles above on the opposite shore, but as the body of passengers and freight passing to and from the West over this old thoroughfare must be transferred to and from the Central Ohio Road at Bellaire, Wheeling must always be, as it is now, a merely nominal terminus.

Another advantage in our situation is the vast amount of coal by which we are surrounded. At this point, this mighty industrial lever is very easily accessable, drains itself, and is in exactly the propor altitude for running coal into manufactories. Coal is worth here seven cents per bushel, delivered.

We have also Railroad Machine Works, Engine House, &c., Planing Mill, Door and Sash Factory. Last spring we had erected a fine glass house, which is now doing a flourishing business. This spring we have already begun a heavy rolling mill and nail factory, which will be, when finished, similar to the one across the river under the supervision of Norton, Mendenhall & Company.

The Baltimore and Ohio Railroad Company have begun at this point, what will be, when completed, the best railroad bridge on the Ohio. They have on the ground a large amount of cut stone, but are now delaying on account of the immense expenses they will incur in refitting the Central Ohio Railroad throughout its entire length.

To industrious mechanics, tradesmen of all kinds, and laborers, I would say that the prospects of Bellaire in the future are bright and still brightening. There is nothing easier or better for a laboring man to do, than to fall in with a growing town and grow up with it. Yours, &c., A. B.

Non-Resident Merchants.

To the Editor of the Pittsburgh Commercial:

DEAR SIR—We beg the favor of space for a few words in reference to an article which is from your editorial of the 10th inst., headed "Non-Resident Merchants." We are too familiar with editorial claims to find fault with the general tenor of the article; but we think that to be singled out as a firm which "dishonorably interferes with the home trade of Pittsburgh, and cheats the county of its tax," is a severity of anathema which, if undeserved, you will allow, we have a right to object to. We have been just twenty years selling goods to Pittsburgh, and number among our friends and correspondents some of her best merchants. *Our business is exclusively with those merchants who make their purchases East.* We want none others, and we sell to none others. We have in two instances lately discharged salesmen for departing from our instructions in this particular. We submit that we do not interfere, then, with the "home trade" *when we sell only to those who go abroad to buy.* As an enterprising house we have felt that we are entitled to as much of the business of Pittsburgh as we could honorably obtain in competition with other respectable houses east; and confess to the conviction that, as Pennsylvanians, we are better entitled to this "home trade" than New York, which pours into your city its daily stream of unlicensed and non-tax-paying agents. We have doubtless made enemies in a twenty years' competition of this kind; and the animus which dictated the information you have received is probably found just there.

In reference to the statute which you quote, we did not suppose that it applied to houses in Pennsylvania. Doing business and paying taxes in this State, we had supposed that we were fully entitled to sell our merchandise anywhere within its borders. As the law is directed to Philadelphia county as well as to Allegheny, we thought it was intended to operate only against parties from other States.

As to the question of selling goods by sample, it will be found, we think, very difficult to prevent it. If it is not done in one form, it will be done in another. If a statute could be enforced, prohibiting entirely the entrance into Pittsburgh of eastern agents, *the Express* would bring their samples. *Your city would demand it.* You might as well attempt to regulate the price of gold, as to stop up the necessary channels of trade by statutory enactment. In all progressive countries the system of commercial travelers has obtained against every obstacle. In England all jobbing business is done in this way. Every goods house has its traveller, who is subject to unvarying rules, and we believe the same is the case on "the Continent." It certainly has its advantages both to the buyer and seller, and is a great developer. Like labor-saving machinery in the interest of labor, *it creates a demand by its own work.* Let the restrictive system prevail; build a wall around Pittsburgh; let none enter it to do business from without, and how long will it take for its trade to decay, or to be contracted and monopolized in the hands of a few? The activity which the system of "free trade" with *ourselves* inspires, is one of the prominent features of the progress of the age, and is advantageous to all the parties in interest. It opens up intercourse. It brings the buyer and seller together on understanding terms. It regulates credits, and operates as well in favor of the consumer. Begging of you, as a matter of justice to ourselves, (whom we cannot suppose you have any desire to misrepresent) to allow the appearance of this article in the same column in which the detraction occurs, we are, gentlemen,

Very respectfully,

BOND & BIDDLE.

PHILADELPHIA, April 15, 1867.

Concerning the prevailing style of fashionable church music, *The Christian Register* makes this camplaint: "The opera is fast getting the upper hand in our churches, and the ends of devotion are sacrificed to the demands of taste. A quartette perform in the orchestra, and the worshippers listen and criticize as spectators. As to knowing what sentiment or feeling is expressed by the choir, unless one has recourse to his hymn-book he is just as much in doubt as if the words were sung in Chinese or Choctaw. Then in the selected anthem or chant there is the same straining of the voice to produce operatic effects which characterize the stage. Indeed, the frequenter of the opera hears snatches of the performances of the week produced on the organ during Sunday. In all this little is accomplished beyond the gratification of taste."

THE Philadelphia *Ledger* makes the timely remark, that the exposure of the management of the Atlantic and Great Western road should not only open the eyes of parties immediately interested in it, but ought to have the effect of inducing stock and bondholders in other large companies to look a little after their heavy expenditures, and to learn by rigid examination, whether the payments of interest and dividends are wholly or in any considerable part from borrowed money, or, as it is claimed they are, from actual earnings. Nearly all the large companies in this and other States are borrowers of money in some shape or other, and the New York Central is before the Legislature of that State for the privilege of increasing the passenger fare.

REDDING'S

RUSSIA SALVE,

[ESTABLISHED 1806.]

PRICE 25 CENTS PER BOX,

Is the Universal Remedy for

Burns, Scalds, Cuts, Bruises, and all Flesh Wounds; for Chilblains, Chapped Hands, Piles, and Old Scrofulous Sores! Eruptions, Blotches, Salt Rheum, and all Cutaneous Diseases.

REDDING'S RUSSIA SALVE is a *purely Vegetable Ointment*, made from the very best materials, and combines in itself greater HEALING powers than any other preparation before the public. Its timely application has been the means of saving thousands of valuable lives, of relieving a vast amount of suffering, and wherever used, has proved itself in reality A BOON TO SUFFERING HUMANITY.

Sixty Years' General Use of the Russia Salve is a Noble Guarantee of its Incomparable Virtues as a Healing Ointment.

The very large sale of REDDING'S RUSSIA SALVE, during the past *sixty years*, has given rise to hundreds of unworthy imitations, but throughout all opposition, the RUSSIA SALVE maintains its supremacy as a reliable preparation, having a steady and permanent sale, and never deteriorating in quality, by age or climate, and is sold to dealers at a price enabling them to realize a generous profit by its sale. For sale by all Druggists and Apothecaries.

MISHLER'S

HERB BITTERS,

THE

GREAT DYSPEPSIA CURE.

We have received the following communication from Capt. EDWARD DUFF, of East Liberty, bearing strong testimony to the great virtues of MISHLER'S HERB BITTERS, as a remedy for DYSPEPSIA AND INDIGESTION.

EAST LIBERTY, March 25, 1867.

MESSRS. FAHNESTOCK & HOLTON—

Gentlemen: I write to add my testimony to that of thousands of others as to the merits of MISHLER'S HERB BITTERS, that the sick and afflicted may have the benefit of my experience with your *Invaluable Medicine*. For many years I have been suffering with the very worst form of Indigestion and Dyspepsia. Only those who have been afflicted as I have know the trouble, pain and misery I endured. After suffering a number of years, I was induced to try your MISHLER'S HERB BITTERS. The use of but a small quantity of this most excellent Medicine has effected a radical cure in my case, and I here take occasion to recommend its use to all persons similarly affected. I am much pleased to see that we are to have a Branch House for the sale of this remedy in Pittsburgh.

Hoping that MISHLER'S HERB BITTERS will meet with that approbation and extended sale their great merits entitle them, and that thousands upon thousands of our suffering fellow creatures may be healed, as I have been, through their extraordinary virtue and curative powers, I am truly, yours,

EDWARD DUFF.

NOTICE FOR PROPOSALS FOR SUPPLY OF MARINE HOSPITAL, PITTSBURGH, PA.

DISTRICT OF NEW ORLEANS, PORT OF PITTSBURGH, April 15th, 1867.

Notice is hereby given that sealed proposals, accompanied by proper guarantees, according to forms to be furnished on application at this office, will be received thereat until 12 o'clock meridian, on the FIRST TUESDAY OF JUNE NEXT, for the supply of the Marine Hospital, at Pittsburgh, with the articles of Provisions, Medicine, &c., enumerated in said forms, for one year from July 1, 1867. The quantities stated are estimated with reference to the usual number of patients in the Hospital, but the United States reserves the right to take more or less of said articles, accordingly as they may be actually required. If the articles delivered at the Hospital are not, in the judgment of the physician, of the best quality and adapted to the Hospital, he will be at liberty to reject the same, to purchase other articles in their stead, and to charge the contractor with any excess in cost over the contract price.

The United States reserves the right to accept the proposals for the whole or any portion of the articles specified.

GEORGE C. McLEAN,

eod Surveyor and Agent.

NOTICE—TO THE BONDHOLDERS OF THE ERIE CANAL COMPANY.—By an act approved March 15th, 1867, the Erie Canal Company is authorized to enlarge their canal to such size as they may deem expedient.

The Act authorizes the increase of the capital stock to $1,500,000, and authorizes the Company to receive in payment for subscriptions to stock any bonds, judgments or other indebtedness of the company. The act further provides that "When the present indebtedness of the company or three-fourths of the same shall have been converted into capital stock, the said company is hereby authorized to execute a mortgage of the said canal, its rights, privileges and franchises to their trustees, and issue coupon or other bonds to the amount of one million of dollars, bearing seven per centum interest per annum and not running over forty years, and secured by the mortgage aforesaid, to be expended by the said trustees under the direction of the Board of Directors in the enlargement of the said canal, and with power to sell said bonds at such prices as the Directors may deem expedient."

The company proposes to enlarge the canal to pass boats of from 200 to 250 tons burden, and as there can be little doubt of the canal, when enlarged, paying the interest on its present debt and stock, in addition to the interest on the new bonds, it is hoped the Bondholders will promptly convert their bonds into stock, to enable the company to proceed at once to make arrangements for enlarging. The stock books of the company will be open for the conversion of the present bonds into stock, on and after the FIRST DAY OF MAY, 1867.

By order of the Board.

A. H. CAUGHEY, Secretary.

A LIFE'S LOSS.

Do you remember the Summer day
You found me down by the ruined mill?
The skies were blue, and the waters bright,
And shadows glanced on the windy hill,
And the stream moaned on.

You sat by my side on the moss-grown log,
Where one whom I loved last night had stood—
I heard his voice, like an undertone,
While you talked to me in that solitude,
And the stream moaned on.

You did not tell me your heart was mine—
You only said that my face was fair,
That silks and satins should robe my form,
And jewels should flash amid my hair,
And the stream moaned on.

You did not ask me to give you love—
You did not touch my lips or my brow—
Contented you were with my plighted troth
And never a kiss to seal the vow,
And the stream moaned on.

You went away with your lofty port,
And smiled as you uttered your light good-bye,
But the wind stole down from the frowning hill,
And stood at my side with a gasping sigh,
And the stream moaned on.

You remember the pomp of our bridal morn—
The jewels that mocked the bright sunshine—
The rustling silks—the ringing mirth—
The flush of roses—the flow of wine—
While the crowd looked on.

But I saw a sight they did not see—
A guest they knew not was there—
Heart of my heart, he came to mock
My bridal vows with his pale despair,
And my soul moaned on.

You got that day what you bargained for—
My hair to braid your jewels in,
My form to deck with your silken robes,
My face to show to your haughty kin,
But my soul moaned on.

Talk of love—you come too late—
You cannot dispel my heart's eclipse—
Where your image should be a corpse lies enshrined,
And no voice comes from the death-cold lips,
Though my soul moans on.

Some Summer day I shall wander down
Where the waters flow by the ruined mill—
Where the shadows come, and the shadows go,
There at the foot of the windy hill,
And the stream moans on.

You will find me there, 'neath the whispering wave,
Colder and stiller than ever before—
The dreams I dreamed and the hopes I hoped
Will be hushed to silence forevermore—
Though the stream moans on.

GENERAL INTELLIGENCE.

A young Methodist clergyman has preached from the steps of his church in Salisbury, N. H., all through the winter, the house having been closed against him soon after he was sent there. No one comes to hear him, but storm or shine, he takes his position with uncovered head, and exhorts and prays, and no expostulation or entreaty can turn him from what he deems his duty.

A young Ohio soldier, now living in Cleveland, was wounded and taken prisoner during the war, and confined at Andersonville, but came out alive in the end. Meantime his friends, believing he was dead, had a funeral sermon preached and a monument erected, while his comrades inscribed his name on the monument erected in Woodland Cemetery to the memory of the fallen heroes of the Twenty-third Regiment.

One hundred and twenty thousand bales of cotton is the aggregate amount of that material received in Norfolk during the present season up to date. This is said to exceed the receipts before the war, and with the consolidation of the railroads in the State an accomplished fact, expectations of a greatly increasing trade are confidently entertained by the business men of the town.

We copied from the Indianapolis *Journal*, a short time since, a story to the effect, that a beautiful young lady of seventeen residing in Jacksonville, in this State, while lying in a comatose state from the effect of chloroform, which she had taken to allay the pain of an aching tooth, had been buried, under the supposition that she was dead. The Jacksonville *Journal* pronounces the story false in its essential particulars, and wishes all papers which have given it currency, to deny it.

A telegram has lately attained an extensive circulation in English and American papers, stating that an infant was left at a railway station in Stafford with a bank note for £200 pinned to its clothing. The story was a hoax, but the station-master has received a hundred letters from all parts of the kingdom, applying for the privilege of adopting the little stranger and its £200.

Several large families, including men, women and children, from the lower part of Campbell county, Va., have passed through Lynchburg, *en route* to Springfield, Ohio, in the vicinity of which they design locating.

North Alabama farmers are planting one-half to two-thirds more land in corn than cotton. The protracted wet weather in March greatly retarded plantation work.

The town of Napoleon, Arkansas, is situated on a tongue of land at the junction of the Mississippi and Arkansas rivers. Last year the river cut deeply into this point, and now a large portion of the town has disappeared. The water the other day was sixteen feet deep in the streets, and the chances are that another season will see steamers running over the site.

There is assembled at Lexington, Kentucky, a Conference of the Methodist Church (colored), composed of one hundred and forty ministers, presided over by Bishop Quinn. Delegates are present from Ohio, Pennsylvania, Kentucky, Indiana and several Southern States.

The Lexington (Ky.) *Statesman* says that the fruit crop in that vicinity is not killed by a good deal. The apples and cherries are scarcely injured at all, and there will be from a half to two-thirds of a crop of peaches. Where the orchards are on high ground the crops will be large.

A St. Louis dispatch of the 17th, says: The river is rising rapidly at this point, and all the upper streams are rising. The Missouri, between the mouth of the Platte river and Kansas City, is out of its banks in many places and doing much damage. The current is so strong that some boats cannot stem it, and are laid up.

The Hancock expedition against the Indians is progressing. The troops will proceed to a point where Hancock has arranged a meeting with the chiefs of the different hostile tribes. If they evince a disposition to be submissive and peaceable, they will be allowed to depart in peace. If they are fractious, and are for war, they shall have it.

It was stated in the Rentpayers' Association meeting in New York, on Friday evening, that Mr. Astor owns real estate valued at $25,000,000, and that he never sells property, but with the interest of his wealth continually buys more.

A leading English shipbuilder has designed a class of steamships for the North German Lloyd's Company, to make the passage between Falmouth and New York in seven and a half days, or at 16½ knots an hour. The ships are to be only 330 feet long, by 80 feet beam and 27 feet hold, but are to be propelled by a pair of monster diagonal compound engines, using 600 indicated horse-power. The high pressure cylinders are to have a diameter of 80 inches, and the low pressure 160 inches, with 9 feet stroke. Total tonnage, with 1,060 tons of coal and 1,000 tons freight, draft 21¼ feet, 5,900 tons.

The negro question has invaded the Young Men's Mercantile Library Association of Cincinnati. At a regular meeting, this week, one of the members, in view of the fact that a colored minister had been admitted to membership, moved to amend the constitution by inserting the word "white." He was choked off, however, and any young merchant of good character may be admitted, no matter about his color.

PERSONAL.

—The London correspondent of the New York *Times* ventures to say, "If Jefferson Davis or Gen. Lee were to land in England to-morrow they would be received with every demonstration of respect and admiration."

—It is reported that since Mr. George Peabody destroyed the four thousand begging letters he had received from his fellow Americans, he has received about one thousand more, the writers of all of which are anxious to relieve him of his surplus money.

—The Paris correspondent of the Springfield *Republican* does up a well known character after the following fashion: "One of the offshoots of the rebellion, thrown out as having no savor, good or bad, an unmitigated loafer, an excrescence—such is short stubbed, bushy-haired, beetle-browed Sanders, of political infamy and bad odor. He lives here very much alone, and may be seen haunting the precincts of the Grand Hotel every day at noon, or in the evening sucking straws with a party of Southerners, and now and then, I am ashamed to say, with Northern men. He seems to be utterly without any purpose more than to put one foot in front of another, and promenade; and has an uneasy, sidelong manner, like Riderhood, in "Our Mutual Friend," as if he anticipated an apprehension at every corner."

—Mr. Fox, lately of the Navy Department, in a note to the *Tribune*, contradicting the statement of a Washington correspondent that Prince Gortschakoff told him Russian America is worthless, says he has not seen an article advocating the acquisition which exaggerates its importance, nor an article opposing it as valueless that does not apply equally to Norway, which has the same geographical position, features and similar isothermal lines.

—Mr. Greeley, in relating an interesting incident of his boyhood, lately used the following language: "When I was nine years old, there unexpectedly appeared one day in my father's humble farm house a clergyman, doctor, lawyer, and perhaps one or two other magnates of our New England rural township, who addressed my parents to this effect: 'Your son is so promising a student, so easy and rapid a learner, that we think he should have a better education than our common schools can give him. We propose, therefore, that he be sent to Phillips's Academy, and thence to college; and we offer, should you choose to intrust him to us, to see that he is thoroughly schooled, without expense to you.' My poor but proud parents responded with thanks, but said that they would give their children all the schooling they could fairly afford, and that this must serve them. And among the many things for which I have cause for filial gratitude, I accord a high place to this decision."

—Count Bismarck, who is sometimes rude, has made an apologetic explanation to the North German Parliament. In reply to a sharp rebuke from a member he said: "You should consider that one who has for five years been engaged in political conflicts, in which he has lost his health to attain what has been attained, is easily excited. You do not know in what manner your opposition may affect my political action. You are not acquainted with my struggles, nor with the general political situation. You do not know how difficult it is at present to deal with foreign governments, when one is not certain of the support of Parliament."

—General Garfield is stated to have announced himself in favor of the renomination of Governor Cox.

—Friends of General Schenck say that he has within a few days retracted his determination to allow the use of his name as a candidate, as he prefers running for Congress.

—Stephens, the defunct Head Centre, is in Paris, out of money, it is said.

—Rev. Charles Elliott, of the Chicago Theological Seminary, is at Oxford to occupy the Greek chair, made vacant recently by the death of Dr. Burtis, until the close of the session. Dr. Elliot formerly held that position in the University.

—Mrs. S. Allison, a philanthropic lady of Nashville, visited Centerville, Hickman county, on the 1st., to address the freedmen in relation to education. While speaking, Esquire James Early interrupted her with profane and indecent language, and then, becoming furious, choked her till she was nearly senseless. Application was made for a warrant for the arrest of Early, but it was refused by Esquire Gray. Mrs. Allison has reported the outrage to Maj. Gen. Parton.

—Dr. Livingstone, the African explorer, who fell a victim to his zealous attempts to traverse those unknown regions, had a son, who, during the war, ran away from college, came to this country, and enlisted. He gave his name to the recruiting officer in New Hampshire, where he joined the Federal army, as "Robert Vincent." When his father learned this, he addressed a remonstrance to Earl Russell, and had an interview with Mr. Charles Francis Adams, in which he was not over courteous in speaking of his son's enlistment. The young man was discharged.

—Hon. Edwin M. Stanton, Secretary of War, arrived at Mount Vernon, Ohio, on his way to visit his mother, who resides at Gambier. He will remain in Ohio for about a week, and return direct to Washington.

—There are now living at North End, Boston, two small, contented ladies, each keeping house with a daughter, one of whom is eighty-eight years old, and has lived sixty-five years in the house she now occupies. The other, aged ninety-four, has a distinct recollection of the visit of Washington to Boston, and has in her possession two pitchers and a punch bowl which have been in the family more than a century.

—Accompanying the Hancock Indian expedition, under the special charge of the commanding general, is a little Indian boy, about five years old. He is the son of a chief who fell at the Sand Creek massacre. He is a boy of extraordinary intelligence, and shows the true spirit of the savage, by drawing his jackknife on any one who attempts to correct him. He is named Wilson Graham, and was for a time with Wilson & Graham's circus, exhibited through the country as a curiosity. The Indians, before assenting to a treaty, expressly stipulated that the son of the chief should be delivered up to them, and for that reason he is expected to take an important part in the treaty.

SPECIAL NOTICE.

☞ HOLLOWAY'S PILLS AND OINTMENT—Piles and Fistula—Consolation for the Afflicted—sufferers from these terrible penalties of abused nature, will find speedy relief by a few applications of this popular ointment. A steady perseverance in its use, will, with the aid of the Pills, effect a radical cure without recourse to *ligatures*, or other barbarous operations worthy the dark ages of Science. The Pills are a most valuable specific for indigestion—and by their aperient action on the bowels, they exterminate the primary cause of Piles, &c. Sold by all Druggists.

☞ METCALFE'S GREAT RHEUMATIC REMEDY instantly relieves pain, and never fails to cure Neuralgia, Nervous Headaches and Pains in the Head or Face. JOSEPH FLEMING, Agent, No. 84 Market street.

THAYER & NOYES'
GREAT CIRCUS
AND COLLECTION OF
TRAINED ANIMALS.

This long established and favorite Circus and Animal Exhibition, has been thoroughly re-organized and COMPLETELY RENEWED in every detail—thus enabling the management to present the public with SOMETHING FRESH AND ATTRACTIVE, Embracing all the paraphernalia and adjuncts necessary to a first class Circus. The limits of an advertisement will scarcely suffice for a full description of the outfit, or the talents of the artists employed in this unique establishment; but the proprietors take especial pride in directing attention to the *Equestrian Company*, which is composed of all the old favorites,

Horsemen, Gymnasts and Acrobats,
In the Profession.
A CAGE OF TRAINED LIONS,
Has also been placed in this Exhibition, which will be entered by
MR. CHAS. WHITE.
Who will give a sensational performance while in the midst of these formidable and ferocious beasts.
A peculiar and exceedingly thrilling feature in the show will be the carrying of a
Living Wild Lion Through the Streets,
Uncaged and unchained—a sight seldom seen.
At the same time, perfectly safe, the animal being under the rough control of its keeper.
THE EQUESTRIAN COMPANY
Embraces the elite of the arenic art, and whose names will answer for the assertion, viz:
Dr. Jas. Thayer, Humorist.
Mr. C. W. Noyes, Trainer.
Mr. C. Reed, Bareback Rider, &c.
Mr. Chas. Parker, the Contortionist and Clown.
Mr. H. Smith and Son, Double Equestrians.
Hogle and Keefe, Acrobats, &c.
The Miaco Brothers, Trapezists.
Mme. DeLorme, Equestrienne.
Miss Eugene DeFoe, Equestrinne.
Master Wooda Cooke, great Boy Rider and Leaper.
Mr. Geo. Morest, Horizontal Bar Performer.
Mr. T. Robinson, Scenic Rider.
Mr. J. Hunterson, Batout Leaper.
Mr. E. Philips, Vaulter, &c.,
With a Host of Auxiliaries.
LEARNED PONY AND TRICK HORSE
"GREY EAGLE,"
Will be introduced by Mr. Noyes.
THE COMIC MULES,
Will be introduced by Dr. THAYER, and the THREE CLOWNS, will produce their own credentials unassisted.
THE GORGEOUS BAND CHARIOT with the splendid BAND OF MUSICIANS will be followed by the magnificently decorated carriages and vans, will prove to be an eminently IMPOSING SPECTACLE very rarely seen in this country.
WILL EXHIBIT IN PITTSBURGH

A FEW OF THE STYLES—Alphabetically arranged, at Graham & Byrne's, "All the Styles House," No. 52 St. Clair street, Albion, Black Crook, Crescent, Driving, Edinburg, French, Grenadier, Hungarian, Ivanhoe, John, Knobby, Lutin, Melrose, Nevare, Onward, Percy, Quixote, Ruby, Stratford, Terry, Union, Violn, White, Xuberant, Yatcht, Zephyr.

MR. SMITH'S CONCERT.—We are pleased to learn that Miss Lena Luckhart, the most talented young lady pianist in this country, has kindly volunteered to assist at the concert to be given on Thursday evening, 25th inst., at Masonic Hall, for the benefit of the blind pianist, William J. Smith. The fact that Miss Luckhart will play three of her best pieces is sufficient to warrant an overflowing house, and every lover of good music should go and hear.

NEW COMMISSION HOUSE.—A typographical error occurred in our notice of the new Commission House of Messrs. Van Gorder & Shepard, published the COMMERCIAL yesterday. Their place of business is not No. 300 Liberty street, but at No. 360 Liberty street. Messrs. Van Gorder & Shepard are representative Commission Merchants in this community, and they are rapidly building up a business which already outstrips some of the older firms hereabouts.

WENDELL PHILLIPS, ESQ.—That matchless orator and fearless thinker, Wendell Phillips, will deliver his celebrated lecture, "The Lost Arts," to-night at the Academy of Music, on Liberty street, under the auspices of the Young Men's Mercantile Library Association. As an orator Mr. Phillips has few equals, and his scholarly attainments are surpassed by those of few if any of the public lecturers now in the field. We anticipate a crowded house, as the mere announcement of Mr. Phillips name should fill the Academy to its utmost capacity.

IRON CITY BASE BALL EMPORIUM.—Hogle & Chambers, No. 74 Fifth street, have just received the finest and cheapest lot of bats in the city, which they will sell at from forty cents to three dollars each. They are also prepared to furnish clubs with complete outfits at the lowest price. Orders from the country promptly filled. Score books from ten cents to three dollars. Peck's new pocket score books sent to any address on receipt of ten cents and stamp. Only place in the city where you can procure the celebrated Prize Ball Club.

THE BEST TONIC.—Caswell, Mack & Co.'s Combination of Iron, Phosphorated and Calisaya, known as Ferro—Phosphorated Elixer of Calisaya. The Iron restores color to the blood; the Phosphorus renews waste of the nerve tissue, and the Calisaya gives a natural, healthful tone to the digestive organs.

One pint contains the virtue of one ounce of Calisaya, and one teaspoonful a grain of Iron and Phosphorus.

Manufactured by Caswell, Mack & Co., New York. For sale by all druggists. s*

A TIMELY WARNING.—It is especially important at this time, when the markets of the United States are flooded with the direst poisons, under the name of imported liquors, and when domestic compounds purporting to be medicinal, but not a whit less pernicious, are heralded to the world as "sovereign remedies," that the public should fully understand the facts. Be it known, then, that while all the diffusive stimulants called *liquors* are impure, and all the *Tonics* containing alcohol are manufactured with a fiery article containing *amyl* or *fusel oil*, a *mortal poison*, HOSTETTER'S CELEBRATED STOMACH BITTERS contain none of these things, but are a combination of pure essence of Rye, with the pure juices of the most valuable stomachic, anti-billious, and aparient herbs and plants, and that as a safe and rapid remedy for Dyspepsia, and all its kindred complaints, this preparation stands before the world without a rival or competitor. Its sales to-day are equal to the combined sales of all the other tonics advertised in the United States, and the certificates which authenticate its usefulness are signed by individuals of the highest standing in every professional calling and walk of life. Beware of imitations and impostors.

HOME TESTIMONY!

MISHLER'S HERB BITTERS

ENDORSED BY THE

HIGHEST OFFICIALS

OF THE

City and County of Lancaster, Pa.

READ! READ!! READ!!!

Testimonial from Judge Hayes.

LANCASTER, PA., Jan. 3, 1867.

Mr. Benjamin Mishler, an excellent citizen of our town, has introduced to the public within a few years an article, now widely known as Mishler's Bitters. It has acquired a great reputation for medicinal and curative properties. I have used myself and in my family, several bottles, and I am satisfied that the reputation is not unmerited.

Mr. Mishler has made new and permanent arrangements for enlarging his already extensive business by the establishment of a Branch House in the city of Pittsburgh, Penna., Messrs. Fahnestock & Holton, Agents, sexperienced gentlemen, who are widely known in the State for their integrity, energy and tact. Such are the remedial virtues of Mishler's Herb Bitters that I believe their efforts will result in the public good. The ingredients are said to be entirely vegetable, and to consist of such herbs, &c., as are recognized as most salutary to the human system. I am convinced that the hygienic qualities of Mishler's Bitters are not over-rated.

A. L. HAYES,
A Law Judge of the Court of Common Pleas of Lancaster county, Pennsylvania.

Endorsed by the Prothonotary.

[SEAL.] *United States of America, County of Lancaster, State of Pennsylvania.* } ss.

I, W. L. Bear, Prothonotary of the Courts of Common Pleas of Lancaster County, do hereby certify that Honorable A. L. Hayes, is a Law Judge of the Court of Common Pleas of said County, and that the signature purporting to be his is genuine. In testimony whereof I have hereunto set my hand and official seal of said Court, this 5th day of January, A. D., 1867.

W. L. BEAR, Prothonotary.

Certificate from the Steward of the Lancaster County Hospital.

LANCASTER COUNTY HOSPITAL, LANCASTER, PA., January 5, 1867.

During an extended experience of three years, as Superintendent of the Lancaster County Hospital and Lunatic Asylum, (Institutions which contain from 275 to 300 patients the whole of which are under my care,) I have had many opportunities of witnessing the medicinal virtues of Mishler's Herb Bitters. As a consequence attendant on the character of such an Institution, the great majority of cases are of a very complicated character; and in most instances are of a hopeless nature. Shortly after my connection with this Institution, a very bad case of Physical Debility, and general prostration attracted my special attention, and from the reputation which Mishler's Herb Bitters had obtained, I imagined its use would be attended with good results. I caused it to be administered and found that it fully justified the opinion I had formed of it. The success I had met with in this case, encouraged me to still further test it, and I have since used it in a great many cases of Rheumatism, Scrofula, Secondary Syphilis, Asthma, and various other diseases, and invariably with the best results. In many instances when other remedies had failed, Mishler's Herb Bitters restored them to perfect health and enabled them to leave the Institution and earn their own living, thus releasing the County from charge for their support. I am, therefore, convinced that Mishler's Herb Bitters are really what the proprietor calls them, "A Certain Remedy" for the Diseases for which they are recommended.

J. O. STEINHEISER.
Steward and Supt. of Lancaster Co. Hospital.

From the Sheriff of Lancaster County.

MANOR TOWNSHIP, LANCASTER COUNTY, PENNSYLVANIA, January 8, 1867.

DR. BENJ. MISHLER—*Dear Sir:* Some time ago I was attacked with rheumatism severely. Having used different kinds of medicines to no effect, a good friend advised me to try your celebrated Bitters. I did so, and am now happy to state, that I am perfectly relieved. I must say that those who are afflicted with that dire disease, rheumatism, should not delay in supplying themselves with your Bitters. By taking it according to your directions it will effect a cure, almost immediately.

Respectfully yours,
JACOB F. FREY, Sheriff,
Lancaster county, Penn.

Endorsement by the City Officials of Lancaster, Pa.

LANCASTER, PA., Jan. 5, 1867.

Some five or six years since, Mr. B. Mishler, a respected citizen of this place, commenced the manufacture of, what is now extensively known and used as, Mishler's Herb Bitters, and so universal is its reputation and so successful its curative powers, that it has become as familiar as a household word, and a necessary addition in the medical requirements of every family. Understanding that Mr. Mishler contemplates extending his operations in the manufacture of the Bitters and is about establishing an agency in the city of London, I have no hesitation in averring that the Bitters will be a very important and beneficial auxiliary in the *materia medica* in that part of England. Having used the Bitters myself, and being acquainted with others who used it with beneficial effects, I can only add, that in my opinion it is the best remedy ever introduced or used for the cure of the numerous diseases to which flesh is heir.

GEO. SANDERSON, Mayor,
[SEAL] Lancaster City, Pennsylvania.

We the undersigned, heartily agree and concur in the foregoing statement of Hon. George Sanderson, Mayor of the City of Lancaster, Pa.

Further Home Endorsement.

Read the following letter from Mrs. Mary Ann Yost, a lady residing on Penn street, in the Ninth Ward of Pittsburgh, whose life was saved by the use of Mishler's Herb Bitters:

PITTSBURGH, PA., April 12, 1867.

Messrs. Fahnestock & Holton:

Gentlemen: I take sincere pleasure in laying before you the fact that I have recovered from the effects of that very dreadful disease Scrofula, from which I suffered intensely for nine months. My mouth and nose was disfigured to a shocking extent, and I tried three physicians in vain to alleviate my sufferings. They failed to aid me in even the least degree. I was recommended by Captain Gallagher to try Mishler's Herb Bitters, and I have now used only four bottles, and, thanks to a kind Providence and the efficacy of the Bitters, I find myself entirely cured, and my mouth and nose restored to their natural shape and appearance. My general health, also, is very materially improved. I have used no other medicine besides Mishler's Herb Bitters, and to them alone I attribute my miraculous cure. I shall take true delight in recommending these Bitters to any one who may be afflicted as I have been. I owe my life to these Bitters. Very respectfully,

MARY A. YOST.

Mishler's Herb Bitters—Endorsed by the Best Physicians.

Dr. Lane, of Chicago, a physician of twenty-five years' practice, writes concerning Mishler's Herb Bitters, as follows:

Dr. B. Mishler:

DEAR SIR: I was called in to see a case of inflammation of the kidneys of four months' standing that had been treated by one of the best physicians. From the symptoms I saw at once that a preparation like your Bitters should be taken and I prescribed it, and found it had the desired effect. The patient had not been about for some time, but after a few days' use of the Bitters she was able to walk about, and is doing her own housework, with a sure prospect of regaining her usual health. You will please send me a dozen bottles of your Bitters, as I intend using it constantly in my practice in the future. Yours, etc., JOSEPH S. LANE, No. 351 State street.

Mishler's Herb Bitters.

We would most respectfully announce that we are now prepared to furnish our customers with "Mishler's Celebrated Herb Bitters" in any quantity. These are the only truly Medicated Bitters now manufactured. A certain cure for all diseases arising from an impure state of the Blood, Liver or Kidneys. Sold by all respectable druggists throughout the United States, Canadas, etc.

Reliable Testimony.

In allusion to the following statement of facts, we would observe that Mr. Wolff called at this office to express personally his appreciation of Dr. Hunter's skill. The rest speaks for itself:

20 ST. JAMES STREET, ALLEGHENY CITY, April 15th, 1867.

I consider it my duty as well as pleasure to give public testimony to the rapid and surprising effects of Dr. Robert Hunter's treatment in my own case. For two years past I have suffered from bronchitis and asthma to an extent that probably few have experienced. Most of that time I have been obliged to sit up all night to avoid suffocation, catching a wink of sleep for ten or fifteen minutes only when nature has been worn out by endurance. I could only recline in one position; expectoration profuse; pain in the chest severe; great emaciation. I was reduced in weight one-third, and had become so weak that I could not walk the length of a block without sitting down. I consulted many eminent physicians throughout the country and also in this city, but none of them could do anything to relieve me. I swallowed great quantities of medicines, but all to no purpose. I grew worse and worse, until I was finally told by physicians of eminence—personal friends—that I could not live. I resigned my situation at Washington, D. C., concluding there was nothing left but for me to die. In this condition and under these circumstances I consulted Dr. Robert Hunter, only two weeks since, being convinced that his theory of lung diseases and their treatment, was the only correct and scientific position on that sad chapter in medicine. At the time I called on Dr. Hunter I was at the lowest point. He placed me at once—after careful examination—under treatment by Inhalation. In a few days I began to realize in a wonderful manner the beneficial influence of his remedies. Improvement has gone on steadily and rapidly, until to-day I feel myself like a new man. My breathing has become free and strong. I sleep like an infant, in any position I choose; am altogether free of pain, and can walk five miles without fatigue. In fact I feel as though a miracle had been wrought upon me. I have been lifted from the lowest point of danger, suffering and helplessness, and raised almost to the vigor and health of my youth. For all this I am indebted solely to the skill and system of Dr. Hunter. Moreover, he has treated me with a degree of liberality and attention, of which I cannot too highly express my appreciation. J. P. WOLFF.

MY wife has been doctoring for fifteen years. She never got any relief till she commenced with the Indian Doctor who has cured her. Her disease was one peculiar to her sex.
MR. PITTNER, Pattern Maker, Manchester.

I have been troubled with putrid sore throat for some years. I have been using the Indian Doctor's medicine for it, and I feel now as well as ever. C. STUCKERT, At S. McKee & Co.'s Glass Works.

I was almost a living skeleton with Bright's disease of the kidneys. The Herb Doctor has cured me. J. MONTOOTH, Round House, P. R. R. Depot.

Mrs. James McKenna, 21 Penn street, is improving in health very fast under the Indian Herb Doctor's treatment.

I have been troubled for fifteen years with liver complaint and dyspepsia. I tried the most skilled doctors; none of them could do me any good. I applied to the Indian Herb Doctor who has cured me. J. MCVERNON, Boss Carpenter, Webster street.

My child was covered all over its head and face with a scab at least a quarter of an inch thick. It was called scrofula. The Herb Doctor has completely cured it in two weeks.
MRS. MEISTERELD, Birmingham.

I went to Philadelphia and was treated without any benefit by the doctors there. I returned to Pittsburgh and consulted the Indian Herb Doctor's treatment, and he has cured me. My disease was bordering on consumption.
MRS. NEIL, Logan street.

My daughter has been cured of the itch by the Indian Herb Doctor.
MRS. HARE, West Manchester.

I have been troubled with costiveness for twenty years. The Herb Doctor has cured me.
MRS. KOHRSSON, Manchester.

From a Postmaster: I would recommend all who are troubled with rheumatism to go to the Indian Herb Doctor, who has cured me.
ROBERT BINGHAM, Monongahela Valley P. O.

The Doctor's office is 194 Liberty street.

FINANCE AND TRADE.

FRIDAY EVENING, April 19th, 1867.

There has been throughout the past week more animation in our markets, excited by a quick demand for goods. Retailers have been obliged to replenish their stocks which were permitted to run very low in the hope that prices would keep sinking, but in many instances they find themselves mistaken, and they are now eager purchasers, which of itself has the effect of stimulating the market.

—We are without our usual New York Stock Exchange quotations to-day, on account of it being Good Friday. Under the threatening aspect of the news from Europe gold has taken a sudden upward turn, and touched as high as 138¾. The cable news has unsettled the markets generally. The following special dispatches from New York, received by Messrs. McVay & Co., Bankers, will give the ruling rates for Governments in that market to-day:

6s 1881	109¼
5-20s, 1862	109⅝
" 1864	108⅜
" 1865, May and November	108⅝
5-20s, 1865, January and July	107¼
10-40s	98½
December '64 Compounds	115⅞
August 7-30s	106
June 7-30s	105⅜
July 7-30s	105⅜
Gold	138⅜

—James T. Brady & Co., Bankers and Brokers, corner Fourth and Wood streets, dealers in Government Securities, quote the same in New York to-day as follows:

U. S. 6s, 1881	109¼
U. S. 6s, 1862	109⅝
U. S. 6s, 1864	108⅜
U. S. 6s, 1865	110⅜
New 1865	107⅛
December, 1864, Compound Interest Notes	115⅞
Gold	138⅜

—A Wall street gossipper gives the following medley about the stock market, which has, as he remarks, been swinging round the circle of extremes, to the astonishment of bulls, bears, and everybody during the week. Wall street has gone to war with Europe for breakfast, lunched on Russia, with polar bear catsup, dined on Mexico, with bank-statement mint sauce, reconstruction dessert, and supped on Johnson impeachment. Such high living, of course, has had its legitimate effect, and it will take some time for operators to come down to common doings. Gov. Fenton—the prince of governors—has fought the battle over again with the New York Central Railroad, and in the judgment of many fair minded people, has again won a substantial victory—a victory which will be endorsed by the people.

—Cleveland and Pittsburgh stock made a sudden plunge downward early last week. A large operator was forced to sell out at a heavy loss, which resulted in his suspension. Sales one day were made as low as 64¾. The price has since advanced, and closes steady. Michigan Southern is pretty firm—so much so that the bears are afraid to touch it to any great extent. Pacific Mail seems to be tending upward under large daily transactions. Atlantic Mail is firm, without much doing in it. New York Central is waiting new legislative action. Bulls and bears are equally confident of victory in the fight at Albany. Mariposa preferred is much stronger, having advanced 2 or 3 per cent. Rumor has it that a new pool has been formed.

—Cumberland Coal has been weak and neglected, but it is too tempting a bait to wait long without an upward movement. Canton is dull at quotations. The old bull party must do something soon, or it will be a still greater sufferer. Chicago & Northwestern stocks are active and firm at present low quotations. They are, and probably will be, next to Erie, the great foot-ball of Wall street. The common stock will not get a dividend, probably, during the lifetime of any present stockholder. Hudson River is neglected, but pretty firm. Operators expect, however, more activity when the new stock is issued.

—S. S. Bryan, Broker in Government, Railway and other Bonds, and Bank and Railway Stocks, &c., Appollo Building, Fourth street. Orders for the purchase and sale of stocks executed at the New York, Philadelphia and Boston Stock Boards at the regular rates of commission current in those cities.

WEEKLY REVIEW OF THE IRON, STEEL, COPPER, FRUIT AND OTHER MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY EVENING, April 19, 1867.

IRON—We have nothing new to report in regard to the iron trade. There is a very dull market. The orders on the books of our most prominent manufacturers are very small. The strike continues. Beyond the one case before reported, where the puddlers went in at $7 60, which instance remains unchanged, the hands are still unyielding. A misunderstanding as to the price paid by the Union Iron Mills occurred on the resumption of their works on Thursday. It appears that company was puddling what is known as "strong iron" at $9 per ton, the price offered by manufacturers. They have, however, discontinued operations entirely, and will not resume until a definite understanding is arrived at.

We note sales as follows:

PIG METAL.

120 tons anthracite metal forge	$46 50—4 mos.
100 " No. 2 foundry, P. T.	
210 " Hanging Rock, in lots, P. T.	
40 " Mahoning Valley foundry, low grades	$43 00—4 mos.
240 tons Gray Forge	44 00—4 mos.
100 " No. 2 anthracite	49 00—cash.

BLOOMS.

50 tons Juniata, P. T.	
20 " "	$105—cash.
20 " " No. 1	110—4 mos.
15 " " No. 2	106—4 mos.
50 " Muck Bar	76—cash.

STEEL—The market is without change, being in price as quoted for some time past. There is a good stock in the market, whilst the business done is of the most limited character.

COPPER—The market is very dull, and the price of Brazier's coppers, bolt coppers and sheathing have been reduced two cents, each, ℔ lb. Copper bottoms remain as last quoted.

TIN ROOFING—There is a small trade doing, but far behind the regular spring business. Prices remain unchanged from the quotations given for the last month.

HARDWARE—There has been a lively trade doing in the general hardware business for the past two weeks, in fact, the business may be noted as extremely active. There is an excellent assortment of all kinds in the market and at reasonable prices, which have not been changed for some time.

WROUGHT IRON WELDED TUBES—The market is very inactive. Some of our warehouses are full of stock manufactured back in December and January last. There appears but little demand, for any purpose; dealers taking only such varieties as are actually necessary to stock up, and these assortments are generally of the most limited character. Prices remain unchanged.

HEAVY HARDWARE—There is a moderate business doing in some articles. The trade is nothing compared with last season. The card prices of Lewis, Oliver & Phillips's, the Pittsburgh Manufacturers, remain unchanged from quotations given during the past two months.

GLASS—There is a falling off in business generally, and at present trade may be considered very dull, and unless there is some revival in the way of orders, it is quite likely that manufacturers here will either have to suspend operation entirely, or at least curtail their work. Prices have not undergone any change for the past several months. There is a good stock on the market.

LUMBER—The yard trade is moderately active, with a supply in the yards sufficient to meet all immediate demands. Considerable lumber is arriving from up the Allegheny river, but not yet, on account of the high water, in such amounts as may be expected next week. A vast amount is said to be on the way. The arrivals are held by owners much above the views of the yard men, and no sales of any moment have been made. Raftsmen say that unless they get their price, which is now some $25@28 ℔ M, in the water, they will run on to the lower trade for a market.

BOOTS AND SHOES.—The market exhibits no improvement, although stocks are offered at a very little margin with the eastern trade. Country buyers are taking but small stocks. Advices from Boston indicate an upward tendency in prices. There is no change in quotations, as yet, in this market, from those last given.

LEATHER AND HIDES.—There has been considerable doing in this branch of trade, but no change in prices from those last quoted.

FRUITS.—There is only a moderate business doing in foreign fruits at the old quotations, excepting oranges, which are selling at $6 50@7 ℔ box. Messrs. Smithson, Palmer & Co., auctioneers, sold to-day 200 cases of canned fruits, two dozen to the case, of different varieties, such as peaches, pine apples, cherries, &c., at an average of 25c ℔ can. There is a moderate business doing in green apples at from $4@5 25 ℔ barrel, for prime to choice. There is not much doing in dried fruits, which we quote at 9@10c for apples and 17@20c for peaches, as to quality.

ALES—Our general manufacturers are getting up an excellent stock of ales for the summer season, perhaps much superior to those of last season. There is no change to note in the card prices of the superior qualities of ales turned out by the old established manufacture's—Carson, Darlington & Co., the Phoenix Brewery, &c. The demand is quite brisk at present, but there is an ample stock laid in to fill orders of any size.

SOAP AND CANDLES—There is a moderately active market. We note a few changes in the varieties as reported by Sawyer's, viz: Variegated toilet 15c; Detersive 10c; Rosin 4½, 5, 7 and 8c ℔ lb, and Sawyer's barber soap $3 00 ℔ dozen.

STRAW BONNETS AND HATS—During the present week the trade in straw ware has been quite active. There is quite a choice stock in the market offered at prices to induce purchasers in the market.

Michigan Crops.

Our correspondents are unanimous, says the Detroit *Free Press*, in the assertion that wheat never looked better at any corresponding season than now. The winter proved very favorable up to last week, when a warm rain set in throughout the wheat-growing regions of the State, which seemed to change the appearance of the entire face of the land. The rain of Sunday and to-day will also doubtless be of great advantage to vegetation. Should no frost can intervene which would damage fruit buds, and the prospect was never better than at present that we shall realize a good crop of wheat and fruit.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY EVENING, April 19, 1867.

There was considerable activity exhibited to-day, in our general market, but prices were unchanged. There is a continued activity in the flour market. Groceries were generally in demand. Butter and eggs are on the decline.

The receipts of leading articles of produce, per river and railroad, since our last, were: 1,621 bbls flour, 150 bbls apples, 55 boxes cheese, 1,397 sacks of corn, 320 sacks barley, 150 sacks wheat, 1,050 sacks oats, 89 sacks rye, and 21 boxes butter.

We quote as follows, which are the wholesale prices, unless otherwise stated:

APPLES—Prices range from $4 for prime to $5 25 for choice ℔ bbl.

BUTTER—The market is better supplied and prices are lower. Prices were generally 30@32c for choice, though we heard of 1,000 lbs extra sold at 35c ℔ lb.

EGGS—Market dull and prices much lower. We note sales of 20 bbls at 20c; 20 bbls at 18c, and a few choice packages at 20c ℔ dozen.

BEANS—We quote choice white at $3 50@3 00 ℔ bushel.

CHEESE—We note sales of 10 boxes new W. R. at 16@17c ℔ lb.

COUNTRY LARD—Sales were made at 12c ℔ lb.

BRICK—The prices of Boyd's Hill manufacture are as follows: Common run of kiln, $12@13; paving and front, $16@17 ℔ M, according to the distance hauled; pressed, $35 ℔ M, delivered. Fire Brick—Apollo, No. 1, $50; No. 2, $45, on the track; Bolivar, on the track, $35, and delivered, $40.

FLOUR—The market is unchanged, receipts light and no stock in the market. We quote sales of the following brands: 100 bbls McGregor's, at $14 25; 100 Appleton's at $14 50; 100 Desplaine's at $14 25; Jenkins's Lilly at $14 75, and Eureka at $15 ℔ bbl.

GRAIN—We quote No. 2 wheat nominally at $2 85@2 90 ℔ bush. We note sales of 1,000 bush shelled corn on private terms, and 200 bush shelled at $1 ℔ bush. Sales of 2 cars oats at 65c ℔ bush, reported. We quote rye at $1 50 ℔ bush, and barley at $1 15.

POTATOES—Sales of Buckeyes were made at $3 50@4 00 ℔ bbl, and peachblows at 95c ℔ bush. Also sales of lake peachblows, in store, at $1, and on the track at 85c ℔ bush.

MAPLE MOLASSES—We note sales of 40 jugs Maple molasses at $1 65 ℔ gallon.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY, April 20, 1867.

BUSINESS—We left the market yesterday in a very unsettled condition. Buyers as a general thing were disposed to hold off. The sales made for May delivery were at a decline of ½c ℔ gallon. On the whole the market was dull without much disposition to operate. The stock on the market was ample for all regular purposes. Yesterday's receipts fell off to 3,296 barrels; other lots are known to be on the way. Among the operations were the following:

CRUDE—1,000 bbls, May, seller's option, 7c; 300 bbls on the wharf, including packages, 11c. We heard of the following offer made on Thursday evening, viz: 10,000 bbls bulk, with the privilege of making it 20,000 bbls, at 10c ℔ gal, to be delivered at any time during 1867, buyer's option. The seller yesterday declined to close the contract, hence the transaction was not consummated.

REFINED OIL—The market continues in a very unsettled condition. A number of lots were under negotiation but had not been consummated up to the close: sales 4,000 bbls bonded, standard White, delivered as follows in Philadelphia: 500 bbls May; 500 bbls June; 500 bbls July; 500 bbls August; 500 bbls September; 500 bbls October; 500 bbls November; 500 bbls December at 29½c ℔ gal all around. Sales 500 bbls prime light straw to white. Free on cars at works at 20½c. Several other lots, one of 6,000 bbls, fell through, the only difference being ½c ℔ gal.

PITTSBURGH DRY GOODS MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY, April 19, 1867.

Another week of stirring activity has passed, and the trade of Wood street presents the usual appearance of life. The city has been full of buyers and our jobbers are now engaged in waiting on their country friends. Prices are satisfactory and people are buying with a reasonable degree of certainty that they cannot suffer any serious loss by decline of values. Caution, however, still prevails, and merchants do not seem to wish to buy any great distance ahead of their actual wants. There is no wish on the part of jobbers to force sales, &c., on credit, but cash men are of course sought for. Prices rule as below:

Another Run of Coal.

The present rise of water has prepared another fleet of tow boats for the lower markets. The following boats with their tows have and will depart during the next twenty-four hours: tow boats, number of barges and boats 65, containing 840,000 bushels coal. We also noted several "broad horns" passing the city.

CHICAGO LUMBER MARKET.

There is a good inquiry for cargoes, says the *Tribune* of Thursday, and the few that arrived to-day were readily taken at full prices. We note the following cargo sales since the date of our last report: Schr Carrie Woodford, from Kalamazoo, with 50 m ft of coarse mixed at $17 50; 25 m lath at $4 25, and deckload of small hewn timber at $18. Schr Sea Gull, from Grand Haven, with 20 m ft strips and 32 m ft boards, joist and scantling at $18 25, and 25 m lath at $4 25. Schr Challenge, from Pere Marquette, with 70 m ft strips, at $20. Schr Planet, from Manistee, with 115 m ft mixed at $18 25. Schr Coral, from Lincoln, with 86 m ft mixed at $18 25. Schr Wyoming, from Grand Haven, with 40 m ft 1¼, 1½ and 2-inch uppers, partly seasoned, at $45. Short Count Shingles—About 70 m "A" sawed shingles arrived here on Saturday from Good Harbor, and are now uncorded, but they are found to be "short count," being two courses or twenty shingles short in each bunch. The purchaser refuses to pay for full count, and insists that the rules of the Lumbermen's Association require all "short count" to be made full by re-packing at the seller's expense, or that five bunches be counted a thousand. Shippers to this market of "short count" shingles will find that it pays better to act honestly and send full count, as a war on all that are not so has already commenced. Business in the yards continues somewhat restricted, and the demand is principally of a local character. We note a decline of 25c on "A" or star sawed. With this exception prices are firm and without essential change. We now quote:

LUMBER—First Clear, 1, 1¼, 1½ and 2 inch	
Second Clear, 1, 1¼, 1½ and 2 inch	$58 00@65 00

New York Finance and Trade

Gold Closed at 139¼.

NEW YORK, April 19—P. M.

THE MONEY MARKET.

Good Friday was very generally observed in financial circles, the Stock and Gold Exchanges and Mining Board being closed. The Sub-Treasury and banks were open for business, as the day is not a legal holiday, but the bankers' and brokers' offices were closed except for payment of drafts and fulfilling maturing contracts. The demand for money was very light, and large amounts were offered at 4@5c ℔ cent. on Governments, while 5@7 are the rates on stock collaterals.

FAILURE.

The failure of another cotton firm is reported.

GOLD

Quite active in the court-yard of the Gold Exchange, and advanced. Private telegrams from Frankfort quote a decline in 5-20s to 74¾.

STERLING

Moderately active and firm at 109½.

GOVERNMENTS

Firm but quiet; coupons 5-20, 109¾@110; do '64, 108⅜@108⅝; do '65, 108⅝@108⅞; do new, 107⅛@107¼; coupons 10-40s, 98⅝@98¾; 7-30s, first series, 106@106⅛; second and third series, 105⅜@105½.

It is reported preparations are being made for the shipment of specie to-morrow upon the advance of double eagles at London to 72s 4d. The shipments will probably be merely nominal to meet the demand for the purpose of emigrants, and will not be regarded as an indication of any movement of importance.

STOCKS.

There were a number of stock operators on Broad street, and the early dealings in railway shares were generally at higher prices. Central advanced to 98¾, but dropped to 97. Erie ran up to 56¾, and gradually declined to 55⅞. Business was about over at 2 o'clock, when the market was dull and heavy.

CLOSING PRICES.

Ohio Certificates, 22¾@22½; Central, 97⅛@97¼; Erie, 55⅞@56; Reading, 99⅜@99⅝; Michigan Southern, 68@68¼; Pittsburgh, 68⅛@69; Rock Island, 88⅞@89; Northwestern, 31⅝@31¾; preferred, 58⅝@58¾; Fort Wayne, 91⅞@92.

COPPER MINING SHARES.

Prices in mining stock bid in Boston to-day: Canada, 40c; Copper Falls, 21¾; Franklin, 20; Hancock, 15; Huron, 7½; Quincy, 25.

NEW YORK, April 19.—Money quiet and easy at 4@6 ℔ cent. for call loans, the inside rate on Governments. Sterling firm at 109¾@109⅞, gold, for first class bills. Gold active, excited and decidedly higher, opening at 138, advancing to 139⅜, declining to 137⅞, and closing at 139¼. The transactions today were street sales, this Board not being in session. Government stocks without decided change. Freights to Liverpool firmer, with engagements for 15,000 bushels corn at 4½ ℔ sail.

MARKETS BY TELEGRAPH.

CHICAGO MARKET.

CHICAGO, April 19, 1867.

FLOUR—Active and firmer at $12@14 for spring extras; $8 50@9 75 for spring superfine; $15 for white winter.

WHEAT—Not very active, and 1c higher for No. 2 spring than at the close yesterday; sales at $2 80 for No. 1; $2 44@2 46 for No. 2; at the close No. 2 was steady at $2 44½@1 45.

CORN—There is a speculative demand for corn at an advance of 3@4c; No. 1 sold at from $1 03, 1 04@1 06; No. 2 at 93@4c, closing steady at $1 05½@1 06 for No. 1.

OATS—Firm and advanced 1¼@1½c; No. 2 sold at 55½@56¼c, closing quiet at 55½@56¼c.

RYE—Firm and 1@2c higher; No. 1 sold at $1 49@1 56, and No. 2 at $1 40@1 41.

BARLEY—In store neglected; lots by sample 90c@$1 20.

MATTERS AND THINGS ALONG THE WHARF.—The weather remains very pleasant. Business on the landing was not very active. The Monongahela marks indicated ten feet and falling. The Allegheny marks, eleven feet. The coal boat men have had a busy time. The amount left yesterday and to depart this day, reaches 840,000 bushels in barges and boats, besides a number of broad horns, that left. The Lion arrived from Cincinnati with a tow of 11 empty barges, the latter being scarce, as most of the boats of that description have left for the lower ports. The steamer Nora is announced to leave for the Mountains during the coming week. The Robert Moore left last evening for Portsmouth, with a good trip. The Leni Leoti left for Parkersburg on time. The packet for this day is the steamer Grey Eagle: she leaves at noon. The side-wheel packet Ezra Porter takes her departure this day, positively, for St. Louis and St. Paul. The Columbia, Glasgow and Importer are announced for that port, and will have dispatch. The fine packet America is the only boat loading for Memphis and New Orleans. The trade on the Monongahela was moderately active during the week.

SPECIAL NOTICE.—The new and splendid side-wheel steamer Ezra Porter, Captain J. H. Porter, takes her departure this day, positively, for St. Louis, Galena, Dubuque and St. Paul. This boat is one of the best of her class afloat, and is in charge of as gentlemanly a set of officers as can be found. The clerks are the brothers Porter. A pretty strong team.

THE Robert Moore, Capt. Kerr, left yesterday for Portsmouth, with a good trip.

THE towboat Coal Hill leaves this day for Louisville with 140,00 bushels of coal.

THE packet Maggie Hays will load in turn for St. Louis and the Upper Mississippi.

THE Lorena passed Cincinnati on the 17th, on her way to St. Louis.

THE towboat Sampson left Aurora, Indiana, with 2,200 oil barrels,—destination Pittsburgh.

THE Leni Leoti, Captain Hamilton, left for Parkersburg on time with a fair srip.

THE fine side-wheel packet Grey Eagle, Captain Brennan, leaves this day at noon for Parkersburg and intermediate ports. To passengers going that way a fine opportunity is presented.

THE fine packet Columbia, Captain Reed, is announced for the Upper Mississippi. This boat is well found in every respect, and is in charge of careful and attentive officers.

THE fine packet Importer, Capt. John Noss, is announced for St. Louis, Galena, Dubuque and St. Paul. This boat has the best of accommodations and is in fine condition.

THE fine steamer Ezra Porter, Captain J. H. Porter, is loading for St. Louis and St. Paul. Her cargo is nearly complete. Passengers for those points could not select a better boat, or travel with more attentive officers.

A SUCCESSFUL TOWBOAT.—Among the large fleet of towboats that leave our port on each coal boat rise, there is none that makes their trips with more punctuality than the Coal Hill, Capt. O. A. Lysle. One thing is very evident, when you find an experienced officer in charge you will be certain to see around him first-class assistants. The First Engineer of the Coal Hill is Mr. C. B. Marthens, one of the most accomplished officers in that profession. Mr. Marthens was one of the engineers of the far-famed Buckeye State, a boat that was noted for great speed and punctuality, and during all his career has never met with a single accident. He has been engaged with the present Company for seven years. The Pilot on the Coal Hill is Mr. Noah Potts, who has a reputation not excelled by any one that comes to this port. During the seven years he was employed by this Company he has never sunk a boat or put the Company to one dollar of expense. The Coal Hill leaves to-day for Louisville with 14 boats containing 140,000 bushels coal. We sincerely hope the Company may continue to be equally successful in the future.

THE far famed packet America, Capt. Thomas H. Golding, is fast filling up for Memphis and New Orleans. This boat is one of the best of her class afloat and in the charge of Captain Golding, has won a reputation equal to any boat that comes to this port. The Captain is one of nature's noblemen—don't know how to perform a wrong action, and is justly admired by all who have the pleasure of his acquaintance. It gives us pleasure to say a good word for Captain Golding.

THE first class passenger steamer Glasgow, Capt. G. W. Johnson, is announced for St. Louis, Galena, Dubuque and St. Paul, on Saturday, positively. This boat has great speed, superior accommodations, and makes her trips with great regularity. Persons who have traveled on the Glasgow speak in flattering terms of her appointments.

THE Ida Rees, Captain Joe Browne, left Cincinnati for this port on Wednesday. A portion of her cargo consists of 108 hhds bacon, 500 bbls pork, 50 bales cotton, 200 empty barrels, and 25 bbls whisky. She also receives 500 sacks corn at Portsmouth, for Pittsburgh.

THE ONLY CHANCE.—The fine packet Nora, Capt. Shedden, is announced for the Idaho gold mines. To persons going that way, a fine opportunity is presented.

St. Louis Items.

We condense the following from Wednesday's *Democrat:*

A Weston paper remarks: "The river is rising at this point very rapidly, and all those who have anything floatable lying about loose had better make it fast, as a tremendous rise is anticipated during the spring."

A St. Joseph paper of Sunday says: "The Missouri is now at a very high stage, and the volume of water rushing past this point is immense. During the 24 hours ending at — o'clock last evening there was a rise of over seven feet, and the rise was still in progress at that hour."

The current of the Missouri is so strong that several boats have failed occasionally to make any progress. The rise continues here. The Illinois and Upper Mississippi also continue to rise. Shipments to New Orleans were again meagre.

THE steamer Mountaineer had been repaired and proceeded on her way to the mountains.

FREIGHTS.—The result of the meeting of Missouri river boatmen alluded to yesterday is, that they have adopted a tariff of freight rates, and pledged themselves to adhere to it through this week. Pound freight to Leavenworth 40 cents ℔ 100; to St. Joseph 50 cents; to Brownsville 65 cents; to Omaha 75 cents; to Sioux City $1 50.

ANOTHER BOAT INJURED.—The Antelope encountered a great floating log below Cambridge, and although backing when the contact occurred, four planks of the Antelope were knocked in. She shipped about twelve inches of water. The leak was stopped and repaired, and she left Cambridge on Sunday in good order, her freight being very little damaged.

THE St. Louis *Republican* says: The Great Republic, now famous throughout the South and West as the largest and finest steamboat ever built, will take a place in the "Railroad" line and will come to the landing on Friday to load next in turn after the John Kilgour. The Republic is daily visited by crowds of admiring spectators who, without exception, come away delighted.

RAILROAD BONDS.

FISK & HATCH,

BANKERS,

AND DEALERS IN

Government and other Desirable Securities.

No. 5 Nassau St., N. Y.,

Recommend to Investors the

FIRST MORTGAGE BONDS,

OF THE

CENTRAL

PACIFIC R. R. CO.

This Company is constructing under the patronage of the

United States Government.

the Western end of the

Great National Railway Across the Continent.

Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State Line, traversing the *Richest and most Populous Section of California*, and thence through the *Great Mining Regions of the Territories*, to the vicinity of Salt Lake City.

It forms the *sole Western link* of the only route to the Pacific which is adopted by Congress and *aided by the issue of United States Bonds.*

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The First Mortgage Bonds of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz:

First. The rate of interest is *Six per Cent. in Gold*, payable semi-annually in the city of New York.

Second. The *Principal* is payable *in Gold* at maturity.

Third. The cost of the Bonds, *Ninety-five Per Cent.* and accrued interest, is *Ten Per Cent.* less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

Fourth. The *United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re-payment.*

Fifth. Owing to this liberal provision, accompanied with *Extensive Grants of Public Lands*, by which the Government fosters this great national enterprise, *its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.*

Sixth. The Security of its *First Mortgage Bonds* is therefore *ample*, and their character for safety and reliability is equalled only by that of the obligations of the *Government itself.*

Seventh. The net earnings of the completed portion are *already largely in excess of the interest obligations which the Company will incur on twice the distance*, and are steadily increasing, rendering the *uninterrupted payment of the Interest absolutely certain.*

Eigth. At the present rate of Gold they pay nearly 8½ *Per Cent.* per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes or other funds current in this city, and the Bonds will be forwarded to any address by express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

SOUTHWEST

PACIFIC RAILROAD CO.,

SEVEN PER CENT.

First Mortgage Bonds.

$2,000,000 in Coupon Bonds of $1,000 Each,

TWENTY YEARS TO RUN,

Principal and Interest Guaranteed by the Atlantic and Pacific Railroad Company,

And secured by property valued at $7,500,000, consisting of their completed road to the Gasconade river, 127 miles from St. Louis, and 350,000 Acres of Rich Agricultural and Mineral Lands on its line.

This road passes through a country rich in agricultural resources and in minerals, and particularly so in iron and lead: the iron ore of the Southwest Missouri being the purest known, ranging from 60 to 90 per cent. of pure iron. Rich and extensive deposits of specular oxide and red and brown hematites abound all along the line of the road and on the Company's lands in greater quantities than the total iron deposit of any State in the Union, and a large business is now being inaugurated in freighting iron ore for the Eastern furnaces, the vast excess in yield of this over other ores paying the differences in cost of transportation.

By a provision of the mortgage, when lands are sold to the amount of $40,000, it is to constitute a fund for the redemption of a like amount of bonds, which are also received by the Company at PAR in payment for land. This land is now being disposed of at rates from $5 to $10 per acre. The climate is remarkably salubrious, and the winter being short and mild. For particulars respecting lands, address Colonel A. ALBERT, Land Agent, at St. Louis, Mo.

The Company has been recently merged with the Atlantic and Pacific Railroad Company, having a land grant of 55,000,000 of acres, thereby adding to the fullest to the security of these bonds. The road of the latter Company, when completed, will form a direct and continuous railway from St. Louis to San Francisco, much shorter and of vastly easier gradients than any other route.

Of the present issue of bonds, a limited amount is now offered for sale at the low rate of 80 per cent., subject to advance at the option of the Company. For further particulars apply to

THE FIRST NATIONAL BANK

PITTSBURGH, PA., (late Pittsburgh [Trust] Company,) Capital 500,000, paid in, with priv[ilege] to increase to $1,000,000.

The Pittsburgh Trust Company having orga[nized] under the Act to provide a National Currency [un]der the title of the FIRST NATIONAL BAN[K OF] PITTSBURGH, would respectfully offer its ser[vices] for the collection of Notes, Drafts, Bills of [Ex]change, &c.; receive money on deposit, and bu[y and] sell Exchange on all parts of the country.

The success which has attended the Pitts[burgh] Trust Company since its organization in 1852, [is,] we believe, be a sufficient guarantee that bu[siness] entrusted to the new organization will receiv[e the] same prompt attention.

Having a very extensive correspondence [with] Banks and Bankers throughout the country, w[e be]lieve we can offer unusual facilities to those w[ho do] business with us.

The business will be conducted by the same o[fficers] and directors.
